Re: Information Item - Approved Annual Operations Plan for Fiscal Year  
2006

---

The approved 2006 State Forests Annual Operations Plan for the Tillamook is attached for your information. During my review of this plan, I have found that it is consistent with the Northwest State Forests Management Plan, the 2003 District Implementation Plan, and the 2006 Annual Operations Planning Standards and Guidance memorandum.

This annual operations plan covers proposed forest management activities for fiscal year 2006.

During its preparation, this plan was reviewed by technical specialists from within the department and biologists from the Oregon Department of Fish and Wildlife. Their comments were received verbally and in writing. (The written comments are on file at the district office.) The draft annual operations plan also underwent a 45-day public comment period. All comments were carefully considered, and incorporated where appropriate. The changes resulting from public comments and district decisions are summarized in Appendix 'C' of the Tillamook 2006 Annual Operations Plan.

Approval of this plan does not constitute final approval of individual project details. Individual timber sales are subject to additional review processes at the district and program staff level before approval for auction. The operations described in this plan may be modified during the final preparation and/or implementation. Modifications to these operations will conform to the process included in the draft Annual Operations Planning Directive.

The official copy of this annual operations plan is on file at the district office. Additional copies are available at the State Forests Program office in Salem.

The plan is also available on the department's web site at:
