

Historical Timber Harvest Information for Common School Lands

This table shows the gross value of timber sales and forest products before project costs are subtracted.

Timber harvested volume is volume removed during the FY 2006 period. The average timber stumpage price is for all species harvested during FY 2006.

Historical Timber Harvest Value, Volume, and Stumpage Prices— Common School Lands: FY1997–2006			
Fiscal Year	Timber Sales Value of Timber Removed	Timber Harvest Volume (MBF) Removed	*Average Timber Removed Stumpage Price
2006	\$7,609,658	17,833	\$492
2005	\$20,080,172	42,106	\$477
2004	\$14,260,450	32,520	\$439
2003	\$10,992,972	24,310	\$452
2002	\$14,043,117	29,557	\$475
2001	\$19,231,816	36,621	\$525
2000	\$24,398,921	49,715	\$491
1999	\$20,089,447	38,019	\$461
1998	\$13,658,303	22,055	\$677
1997	\$16,186,164	24,976	\$691
Last 5-Year Average	\$13,397,274	29,265	\$467
10-Year Average	\$16,055,102	31,771	\$518

*Average stumpage price of sold sales per thousand board feet.
