

# Eastern Region Long-Range Forest Management Plan

---

## Table of Contents

### Front Material

List of Acronyms and Abbreviations Used .....	inside front cover
Foreword .....	i
Acknowledgments .....	iii

<b>Executive Summary</b> .....	S-1
--------------------------------	-----

<b>Table of Contents</b> .....	1
--------------------------------	---

### Map Section

Klamath-Lake District  
North Block  
East Block  
Southwest Block  
Scattered Tracts Outside Klamath County

See also “Maps” on page 6 of the Table of Contents, for a list of maps in other sections of the plan.

### Section I. Background and Planning Process

Location of Eastern Region State Forests .....	I-1
History .....	I-4
Forest Management Planning for State Forests .....	I-9
Purpose and Scope of the New Plan .....	I-11
The Eastern Region Planning Process .....	I-11

## Section II. The Guiding Principles

Principle 1.	Comprehensive and Integrated Plan .....	II-1
Principle 2.	Context as a Managed Forest, and Maintaining “Asset Value” .....	II-2
Principle 3.	Timber Supply for Present and Future .....	II-2
Principle 4.	Maximize Financial Return to Common School Fund and Local Governments .....	II-3
Principle 5.	Optimize Long-Term Revenue, Biological Capability, and Social Values .....	II-4
Principle 6.	Cooperation with Others .....	II-4
Principle 7.	Public Involvement and Diverse Input .....	II-5
Principle 8.	Goal-Driven Plan .....	II-5
Principle 9.	Maintaining a Sustainable Ecosystem .....	II-5
Principle 10.	Meet State and Federal Endangered Species Acts .....	II-6
Principle 11.	Use Adaptive Management .....	II-6

## Section III. Resource Description

Introduction .....	III-1
<b>Land Base</b> .....	III-2
<b>The Landscape</b> .....	III-6
Climate .....	III-6
Geology, Topography, and Soils .....	III-8
Water Resources .....	III-15
Air Quality .....	III-35
<b>The Ecosystem</b> .....	III-42
Biodiversity .....	III-42
Vegetation .....	III-53
Wildlife and Fish .....	III-58
Forest Health .....	III-68
<b>The Human Context</b> .....	III-98
Land Use Classifications .....	III-98
Forest Products: Timber .....	III-103
Special Forest Products .....	III-110
Recreation and Scenic Resources .....	III-113
Cultural Resources .....	III-119
Fire Management .....	III-126
Grazing .....	III-128
Subsurface Resources .....	III-139
Social and Economic Resources .....	III-143

## **Section IV. Management Goals**

Air Quality .....	IV-2
Cultural Resources .....	IV-2
Fire Management .....	IV-2
Forest Health .....	IV-3
Grazing .....	IV-3
Land Base .....	IV-4
Recreation and Scenic Resources .....	IV-4
Social and Economic Resources .....	IV-5
Soils .....	IV-5
Special Forest Products .....	IV-5
Subsurface Resources .....	IV-6
Threatened, Endangered, and State Candidate Plants .....	IV-6
Timber .....	IV-7
Water Resources .....	IV-7
Wildlife and Fish .....	IV-8

## **Section V. Management Strategies**

Air Quality .....	V-2
Cultural Resources .....	V-3
Fire Management .....	V-5
Forest Health .....	V-6
Grazing .....	V-7
Land Base .....	V-9
Recreation and Scenic Resources .....	V-11
Soils .....	V-13
Special Forest Products .....	V-14
Subsurface Resources .....	V-15
Threatened, Endangered, and State Candidate Plants .....	V-17
Timber .....	V-19
Water Resources .....	V-22
Wildlife and Fish .....	V-24

**Section VI. Asset Management**

Organization and Management .....	VI-1
Resource Revenues and Expenses .....	VI-3
Summary of Asset Management .....	VI-6

**Section VII. Implementation**

Responsibilities .....	VII-1
Plan Scope .....	VII-1
Plan Duration and Amendments .....	VII-1
Implementation Levels .....	VII-2
Implementation through Other Plans .....	VII-3

**Section VIII. Monitoring, Research, and Adaptive Management**

Monitoring .....	VIII-2
Research .....	VIII-6
Adaptive Management .....	VIII-6

## Tables

S-1.	Revenues, Expenses, and Net Income for Eastern Region State Forests — Timber Only .....	S-7
S-2.	Revenues, Expenses, and Net Income for Eastern Region State Forests — Total for All Resources.....	S-7
III-1.	Summary of Land Ownership .....	III-4
III-2.	Site Indexes for Major Soil Types .....	III-12
III-3.	Game Animals Likely to be Found on State Forest Lands .....	III-59
III-4.	Threatened, Endangered, and Candidate Species .....	III-61
III-5.	Recommended Ponderosa Pine Densities for Minimizing Mountain Pine Beetle Damage .....	III-94
III-6.	Land Use Classifications for Klamath-Lake District Lands .....	III-100
III-7.	Land Use Classifications for North Block .....	III-101
III-8.	Land Use Classifications for Southwest Block .....	III-101
III-9.	Land Use Classifications for East Block .....	III-102
III-10.	1991 Mushroom Prices Paid to Harvester and Buyer .....	III-111
V-1.	Estimated Timber Harvest for the First Six Decades .....	V-20
VI-1.	Revenues, Expenses, and Net Income for Eastern Region State Forests — Timber Only .....	VI-4
VI-2.	Revenues, Expenses, and Net Income for Eastern Region State Forests — Total for All Resources .....	VI-6
D-1.	North Block Plant Associations .....	D-2
D-2.	Southwest Block Plant Associations .....	D-3
D-3.	East Block Plant Associations .....	D-4
L-1.	Summary of the Scattered Tracts .....	L-2
M-1.	Seven-Year Harvest History on Klamath-Lake District State Forests ....	M-2
N-1.	Special Forest Products Likely to be Found on the Klamath-Lake District	N-1

## Figures

I-1.	The Eastern Region State Forests .....	I-2
III-1.	Distribution of Eastern Region State Forests .....	III-5
III-2.	Land Ownership in the Eastern Region State Forests .....	III-5
III-3.	Precipitation History for Klamath Falls .....	III-7
III-4.	Programs Regulating Air Quality in Oregon .....	III-37
III-5.	Fir Engraver Damage to White Fir in Klamath County .....	III-80
III-6.	Mountain Pine Beetle Damage to Ponderosa Pine in Klamath County ....	III-80
III-7.	Mountain Pine Beetle Damage to Sugar Pine in Klamath County .....	III-81

## Maps

Precipitation .....	following page III-6
Major Water Features — Sun Pass State Forest .....	following page III-18
Major Water Features — East Block .....	following page III-22

## Appendices

- A. Glossary
- B. References
- C. Legal and Policy Mandates
- D. Plant Associations
- E. Rare, Threatened, or Endangered Plants: Species List, Status, and Habitat
- F. Mammals: Species List, Status, and Habitat
- G. Fish: Species List, Status, and Habitat
- H. Birds: Species List, Status, and Habitat
- I. Amphibians and Reptiles: Species List, Status, and Habitat
- J. Threatened, Endangered, or Sensitive Predators and Their Vertebrate Prey
- K. Planning Team Members, Staff, and Technical Advisors
- L. Scattered Tracts Plan
- M. Seven-Year History of Timber Harvest
- N. Special Forest Products
