

ODOT Construction Projects

Construction volume increase

- Funding provided by OTIA will nearly double ODOT's construction volume over the next 8 - 10 years.
- Even when adjusted for inflation, this program is bigger than the investment made during the 1950s and '60s, when the bulk of the interstate system was built.
- ODOT will work closely with the private sector to carry out this work.
- This program will:
 - Stimulate jobs in Oregon;
 - Keep freight moving and reduce impact on motorists;
 - Manage the size of contracts so Oregon's small and minority-owned businesses can compete and grow; and
 - Package projects to achieve economy of scale and reduce costs.

During 2003

- ODOT awarded 129 new construction projects worth \$366,435,107 to private contractors.
- Contractors completed 138 projects worth a total value of \$236,903,710.
- ODOT paid contractors \$342,049,250 for construction work performed on 325 projects.
- For information about upcoming construction projects, visit www.oregon.gov/ODOT/.

Highway miles paved in 2003

- Includes chip seals, overlays and new construction.
- Includes maintenance paving contracts and general construction paving contracts.
- ODOT paved enough lane miles to stretch from Portland to Salt Lake City... and back again.
