

The *Oregon Transportation Plan* provides a vision, goals and policies to guide future decision making for a multimodal transportation system in the state. The Plan looks at transportation in Oregon out to 2030. The goals, developed in response to the trends, challenges and opportunities that influence the transportation system, are summarized below:

Goal 1 – Mobility and Accessibility

To enhance Oregon’s quality of life and economic vitality by providing a balanced, efficient, cost effective and integrated multimodal transportation system that ensures appropriate access to all areas of the state, the nation and the world, with connectivity among modes and places.

Goal 2 – Management of the System

To improve the efficiency of the transportation system by optimizing the existing transportation infrastructure capacity with improved operations and management.

Goal 3 – Economic Vitality

To promote the expansion and diversification of Oregon’s economy through the efficient and effective movement of people, goods, services and information in a safe, energy-efficient and environmentally sound manner.

Goal 4 – Sustainability

To provide a transportation system that meets present needs without compromising the ability of future generations to meet their needs from the joint perspective of environmental, economic and community objectives. This system is efficient and offers choices among transportation modes. It distributes benefits and burdens fairly and is operated, maintained and improved to be sensitive to both the natural and built environments.

Goal 5 – Safety and Security

To plan, build, operate and maintain the transportation system so that it is safe and secure.

Goal 6 – Funding the Transportation System

To create a transportation funding structure that will support a viable transportation system to achieve state and local goals today and in the future.

Goal 7 – Coordination, Communication and Cooperation

To pursue coordination, communication and cooperation among transportation users, providers and those most affected by transportation activities to align interests, remove barriers and bring innovative solutions so the transportation system functions as one system.

As part of ODOT’s sustainability efforts, several fleet vehicles have converted to alternative fuels.
