To: RECIPIENTS OF REQUEST FOR CONTRACTOR  
SPECIAL PREQUALIFICATION PACKET

From: Vera Wicks, Operations and Policy Analyst  
ODOT Procurement Office – Construction Contracting Section

Subject: **ADDENDUM NO. 1**  
Bear Gulch Slide Drainage Tunnel Repair  
Key # 16360  
Jackson County, Oregon  
Anticipated Bid Opening Date: June 18, 2009

This addendum is to inform all plan holders for the subject project of changes made to the Request for Contractor Special Prequalification documents. Form 2 for Contractor Work Item (CWI) 2 in Attachment B has been revised to remove the requirement that qualifying experience for the Cured In Place Pipe (CIPP) Liner be additionally associated with one of CWI 1, 3 or 4. Additionally, appropriate changes have been made to Sections 5.8, 5.9 and 5.12. The revised language for Sections 5.8, 5.9 and 5.12 is included herein and the revised Form 2 is appended.

1) **Section 5.8 Contractors' Experience** – Replace with the following:

**Contractors' Experience:** To qualify, the Prime Contractor or proposed Subcontractor must submit evidence of the firms' experience in the successfully completed minimum of projects (the number of which is specified on Forms 1 through 5) in the last five (5) years (completed and accepted no earlier than May 1, 2004). Qualifying projects for Contractor Work Items 1, 3 and 4 shall have involved construction of a minimum of two (2) of Contractor Work Items 1 through 4 in Table 1 below, as they relate to the repair of existing drainage systems or tunnels. Each qualifying project for CWI 1 through 4 shall have had a \$100,000 (one hundred thousand dollars) minimum contract price at completion. There is no contract value restriction on qualifying experience for CWI 5.

2) **Section 5.9 CWI Experience** – Replace with the following:

**CWI Experience:** Contractor may use different Subcontractors to perform different CWIs for this Project. Qualifying work for different CWIs may have been acquired on different projects to the extent that Contractor Work Items 1, 3 and 4 shall involve construction of a minimum of two (2) of Contractor Work Items 1 through 4.

3) **Section 5.12 FORM 2, CWI 2 – Cured In Place Pipe Liners** – Replace with the following:

**FORM 2, CWI 2 – Cured In Place Pipe Liners:** The Prime Contractor or a proposed Subcontractor must have successfully completed a minimum of three (3) projects requiring the installation of a cured in place pipe (CIPP) liner. The CIPP liner must have been 30 inches in diameter or larger and 100 feet in length or longer. The date that the referenced project was

accepted by the owner (or prime contractor, if applicable) must be no earlier than May 1, 2004 to qualify.

You may view addenda for the Request for Special Prequalification at the following website:
