TO: **PLAN HOLDERS**

PREPARED BY: Bobby L. Staggs

SUBJECT: US101: Millport Slough Bridge Section
Oregon Coast Highway
Lincoln County
Grading, Structure, & Paving Project
(Bids to be opened and read July 16, 2009)
Clarification Letter #4

This letter is in response to a comment made by a Plan Holder.

The comment was: "We do not think the Precast Prestressed Concrete Pile can meet the requirements of SP 520.15 without constructing the pile larger than 12" in cross section."

The answer is: "SP 520.15 indicates a minimum cross sectional dimension of 12". PPCP may be constructed of a larger cross sectional dimension if needed to meet the other requirements of SP 520.15."
