

Subject: Expedite Bid software version change for Oregon DOT via the Bid Express service

Attention bidders: If you are planning to submit a bid for Oregon DOT's January 13, 2011 or later lettings, you must use the **Expedite Bid Version 5.9a software**. If you are not using the correct version, you may see a "file too new" error and be unable to submit your bid. You can find the correct version in the "Utilities" tab of the ORDOT page on the Bid Express service.

What action do I need to take?

Download Expedite Bid 5.9a software and use it to submit any bids to Oregon DOT on the Bid Express service. You can find this version in the "Utilities" tab of the ORDOT page on the Bid Express service.

To download an updated version of the Expedite Bid software, please follow these instructions:

1. Go to <http://www.bidx.com> and log in.
2. Select the agency: Oregon.
3. Click on the "Utilities" tab located at the top menu.
4. Click on the "Expedite" link.
5. Fill out the form and press the "Download Expedite" button.
6. You will see a list of agencies. Scroll down to Oregon and click on the Expedite 5.9a link to download it to your computer.

Where can I get more information?

Please contact our customer support team at customer.support@bidx.com or (888) 352-2439, if you need assistance with installing the Expedite Bid Version 5.9a software or if you have any questions.

Sincerely,

The Bid Express service team
