ORS 279C.430

Stats. Implemented

RULE SUMMARY

This amendment relates to prequalification requirements for bidding on ODOT Highway and Bridge public improvement projects. It changes the Mandatory General Prequalification requirement to apply only to projects \$100,000 and over and allows for Special Prequalification even when the Mandatory General Prequalification is not required. ODOT has implemented a new Small Contracting Program for Construction that targets small contractors enabling them to competitively bid as a prime contractor on construction projects under \$100,000. By lifting the requirement of Mandatory General Prequalification for projects \$100,000 and under, the small contracting business will be allowed to use the less stringent prequalification termed Special Prequalification rather than undergo the more rigorous Mandatory General Prequalification process, and also will not be subject to an annual application fee of \$100.
