Records kept onsite by Lorrie Schaefer. To obtain your record, contact Lorrie at [Lorrie.L.Schaefer@odot.state.or.us](mailto:Lorrie.L.Schaefer@odot.state.or.us)

Please join us at this event where Sheila Lyons, ODOT Pedestrian and Bicycle Program Manager, will present an engaging topic on pedestrian crossings.

Topic will cover:

- Why streets need to provide safe pedestrian crossings
- Principals of crossing the street
- Where to locate pedestrian crossings
- Marking research
- When to signalize
- Types of signals
- Multiple threat crash mitigation

About the speaker:

A life long cyclist, Sheila joined ODOT's Pedestrian and Bicycle Program almost three years ago when she assumed her role as Program Manager. Prior to this position, Sheila managed capital construction projects for Oregon Parks and Recreation, and served in several mid-Willamette Valley cities.

About the program:

ODOT's Pedestrian and Bicycle Program provides direction to ODOT in establishing pedestrian and bicycle facilities on state highways, as well as provides support to local governments, organizations and citizens in planning, designing and constructing ped/bike facilities.

For more information, visit <http://www.oregon.gov/ODOT/HWY/BIKEPED/index.shtml>.

**PLEASE RSVP TO: TONY COLEMAN,  
ACEC/ODOT BROWN BAG COORDINATOR  
ANTHONY.T.COLEMAN@ODOT.STATE.OR.US**
