Please read this before you start your driving test . . .

The test you are about to take is perhaps the most important part of your Class C driver license examination.

You do not have to score a perfect 100% to pass. We know you’re probably a little nervous.

During the drive test your examiner will be an observer, not an advisor. Your examiner will not talk or visit with you during the test, except to give you instructions. Any discussion or questions about your skills or mistakes you may make will be discussed after you return to the starting point. This way you can keep your mind on your driving. Your examiner will not trick you.

You will not be asked to do anything against the law, nor will you be asked to do anything that is not a part of driving in today’s traffic. You may ask your examiner to repeat any direction. If you have any questions about the test, please ask before the test starts.

Your examiner will inspect your vehicle to ensure the vehicle equipment needed during the drive test is safe, legal, and in working order.

If your vehicle is not properly licensed or does not have operable equipment or safety belts, the test will be rescheduled.

Please turn off your electronic devices such as radio, cell phone, pager, GPS, etc. Photos during the drive are not allowed. No passengers or pets are allowed in the vehicle during the drive test.

We suggest you use this time to practice and improve your driving skills before attempting your next drive test. You may also want to consider taking professional driving lessons. This may provide you with more experience and better driving skills to more safely operate your vehicle on your next test.

DMV appreciates your feedback. If you took your test at a DMV office please complete a drive test survey.
