

# Highway Construction Project Delivery

## On Budget

Over the last ten years, ODOT delivered nearly 800 projects totaling \$3.7 billion-- which came in under budget by one percent.

In a 2011 independent study that looked at 39 states, ODOT ranked number one in bringing total projects in under budget. This study recognized ODOT as a “top performer” in project delivery among state DOTs. (NCHRP Report 20-24 (37)A(01))

## On Time

Over the last ten years, an estimated 85 percent of projects opened to traffic on time and 73 percent of contracts were completed on time. Getting projects in the hands of private contractors on time is another important goal, which ODOT has met 85 percent of the time.

ODOT’s track record for managing projects has contributed to its AAA credit rating for Highway User Tax Revenue Bonds. Oregon is one of only four states in the nation with this rating.

## ODOT by the numbers 2003-now

\$3.7 billion in projects

Nearly 800 projects complete

1% under budget

85% open to traffic on time
