

October, 2009 BDDM change:

Under:

1.1.5.5 Drilled Shafts

Drilled Shaft Design

(14) Cover Requirements – Provide the following concrete cover for drilled shafts:

Shaft Diameter	Concrete cover
≤ 5 ft	3 in
> 5 ft	6 in

Change the cover requirements to:

(14) Cover Requirements – Provide the following concrete cover for drilled shafts:

Shaft Diameter	Concrete cover
≤ 3 ft	3 in
5 ft. > D > 3 ft,	4 in
≥ 5 ft	6 in

Note: This is based on the new 2009 AASHTO LRFD Bridge Construction Specifications, Section 5, on drilled shafts.
