00565.00 – FRP Bridge Strengthening

ODOT maintains a list of products suitable for use in strengthening concrete columns and beams.

We have found the program developed by CALTRANS meets our needs.

To apply for inclusion on the QPL, submit the following:

- Preliminary information for Product Evaluation Form.
- Spec data sheet with a list of limitations and precautions.
- Detailed installation instructions.
- MSDS
- Copy of written approval from CALTRANS.

Contact Information:

CALTRANS
Contact: Jim Gutierrez
Phone: (916) 227-8256

Note: Approval by CALTRANS requires manufacturer paid testing by independent test laboratory. Must meet CALTRANS testing requirements for approval. Contact CALTRANS for details.

Submit documentation to:
Oregon DOT
