00866.00 – Longitudinal Pavement Markings - High Performance

General – All Pavement Markings used on ODOT projects must come from the ODOT Qualified Products List (QPL). Here is the link to the QPL Website if you are interested. <http://highway.odot.state.or.us/cf/QPLSearch/index.cfm>

Specifications – High performance Longitudinal Pavement Markings are designed to be the mid-level performing products. We require a one-year warranty from the manufacturer for these products. We allow high performance markings to be used in various applications. We allow spray and extrude. Current versions of all of our specifications are on the Internet. You can review the Standard Specifications and modifications to those called Special Provisions by reviewing Section 00850 and 00866 at: <http://www.oregon.gov/ODOT/HWY/SPECS/index.shtml>

Process – To have your product evaluated for placement on the QPL, submit the following:

- [Preliminary Information for Product Evaluation Form](#).
- Signed Warranty Acceptance Statement.
- Copy of your Contractor Certification program.
- Copies of Brochures, including pictures.
- MSDS (including primers if necessary).
- Limitations of Product.
- Installation Recommendations.
- Submit two cured samples of each color, and shape, approximately 8” long.
- Place each product on an ODOT Test Deck for Evaluation. – Contact Joel Fry at 503-986-4485 for information regarding up-coming test decks.

ODOT Categories for High Performance Longitudinal Pavement Markings

(On the submittal form, list the category you wish to have your product reviewed for.)

<u>Category</u>	<u>Applications</u>
Method 1 – Spray	Modified Urethane
Method 2 – Inlaid	Modified Urethane, Protected Inlay
