
CERTIFIED BRIDGE CONSTRUCTION INSPECTOR

Below is the list of materials used during the training session and are necessary materials for taking the Certified Bridge Construction Inspector exam. Hyperlinks will take you to PDF versions of the documents. This file is very large and it is recommended that you save the document to your hard drive before you try to open it. You are free to print copies of this manual. File sizes will be noted.

2002 Standard Specifications

[Certified Bridge Construction Inspector Training Manual](#) (161 M) \$70.00

You will also need a calculator to take this exam.

The 2002 Standard Specifications are no longer available for purchase.

If you would like to purchase any of the other materials, please use the Construction Section [Manual Purchase form](#) and send it to Lori Butler by e-mail or fax (503.986.3096).

If you have questions about challenging the Certified Bridge Construction Inspector exam or training, please contact Lori Butler at lorraine.e.butler@odot.state.or.us or by calling 503.986.3007.
