RE: Local Bridge Application Information request

As per your request from letter dated November 24, 2003, below is the information needed.

District 13
Bridge ID 63B015, Prairie Creek Bridge

This bridge crosses Prairie Creek which is in a 100 year flood plain. The freight that crosses is are cattle trucks. There is a saleyard not far beyond this bridge. Their peak season is August through November. An average week is 4-5 semi-trucks per week hauling cattle out of here, a busy day can also be 4-5 in any one day. There is no alternate route for these trucks if this bridge were to fail, there is an alternate route for vehicles.

This is the only saleyard left in our County and is vital to the cattlemen in the County. To those in a higher populated area, this may seem low usage, to Eastern Oregon, it is business as usual.

Thank you for considering our bridge replacement request. If any more information is needed please do not hesitate to contact me.

Sincerely,

Michele R. Young
