(2) If the cost of evaluating an unsolicited proposal exceeds the fees assessed under section (1) of this rule, the Director may assess additional fees that reflect the reasonable expected costs to be incurred by ODOT in evaluating the unsolicited proposal that exceed the amount deposited in section (1) of this rule.

(3) The Director may waive the fees specified in sections (1) and (2) of this rule if the interests of the state or the specific merits of the project would warrant such a waiver. In considering whether to grant a waiver the Director will consider the magnitude of costs versus benefits of such a waiver.
