

**Tribal Consultation for CE Closeout
Kurt Roedel, ODOT Archaeologist
December 18, 2009**

No Key Number, I-5: Baldock Rest Area, Solar Panels Project, Region 2

Confederated Tribes of the Grand Ronde Community of Oregon

- October 12, 2009, e-mailed Eirik Thorsgard (Eirik), Cultural Resources Coordinator, and Don Day (Don), Cultural Resources Site Protection Monitor, project information and project area maps. No comments received.
- October 19, 2009, Eirik mailed letter to the State Historic Preservation Office based on ODOT's submittal of Archaeological Permit AP-1299 needed for fieldwork. Eirik requested three conditions for approval of the permit: 1) five-day advance notice by telephone or e-mail for fieldwork; 2) an opportunity to have a Tribal consultant on hand for fieldwork; and 3) submission of the final report to the Cultural Resources Department. These conditions have or will be met.
- November 2, 2009, e-mailed Eirik and Don fieldwork dates and project area map. No comments received.
- December, 1, 2009, e-mailed Eirik and Don project information for December 11, 2009, meeting. No comments received.
- December 11, 2009, meeting with Eirik, Don, and Brandy Humphreys, Environmental Resources Specialist, Natural Resources Division. Provided project information and project area map. No comments received.
- December 18, 2009, e-mailed Eirik and Don PA Memo.

Confederated Tribes of Siletz Indians

- October 12, 2009, e-mailed Robert Kentta (Robert), Cultural Resources Director, project information and project area maps. No comments received.
- November 2, 2009, e-mailed Robert fieldwork dates and project area map. No comments received.
- December 8, 2009, e-mailed Robert project information for December 16, 2009, meeting. No comments received.
- December 16, 2009, meeting with Robert. Provided project information and project area map. No comments received.
- December 18, 2009, e-mailed/mailed Robert PA Memo.

Confederated Tribes of Warm Springs (Geo Visions)

- October 12, 2009, e-mailed Sally Bird (Sally), Cultural Resources Manager, Geo Visions, project information and project area maps.
- October 13, 2009, Sally replied, “Would this require ground disturbance, are they putting them on a building or the ground?”
- October 14, 2009, replied, “This is a very large solar array, around 11 acres. The panels will be on the ground and there will be ground disturbance. I am not sure how deep yet. ODOT is going to handle the fieldwork (shovel probes) in house. You should see a permit within the next few days.”
- November 2, 2009, e-mailed Sally and Roberta Kirk (Roberta), Review and Compliance Coordinator, Geo Visions, fieldwork dates and project area map. No comments received.
- December 18, 2009, e-mailed Roberta PA Memo.
