

Activity 083
Produce Sand, Rock, Cold Mix

Activity 083 involves producing material, including work done by ODOT forces, for use in the Maintenance program, where the Maintenance program incurs the costs of production over a period of time. Materials include:

- Crushing, screening, or mining cinders or other sanding material.
- Crushing, screening, or mining rock for paving or other work.
- Producing asphalt concrete in ODOT mixing plants.

This Activity includes the associated costs of transporting, installing, and removing equipment. When the material has been produced, transfer all incurred costs under Activity 081 if it is stockpiled immediately.

Also refer to discussion in the Purchase and Acquisition of Goods and Services section of this Guide.

Before starting work under this Activity, obtain a Special EA from the Maintenance Management System (MMS) Unit in the ODOT Highway Finance Office.

Measurement of Accomplishment, Expenditure Account, Charge Activity

Measurement is number of worker hours involved. Expenditure account type is Special EA. Charge all costs to TEAMS Activity 083. When the work is complete, transfer all costs to Activity 081.
