

Activity 139 Other Roadside and Vegetation Maintenance

Description

Activity 139 involves performing miscellaneous maintenance or repairs related to maintaining the roadside or controlling vegetation, including:

- Grooming and/or restoring roadside or median slopes.
- Recycling, performed by maintenance workers, of litter or debris.
- Removing illegal signs.
- Controlling vegetation by biological or cultural methods.

Controlling Erosion, Sedimentation, and Pollutants or Contaminants

Plan and implement methods to control erosion, sedimentation, and pollutants or contaminants, including those discussed in the Control of Erosion, Sedimentation, and Pollutants or Contaminants section of this Guide and the *ODOT Routine Road Maintenance Water Quality and Habitat Guide Best Management Practices*.

As appropriate, implement and maintain devices and processes including those described in the *Field Manual for Erosion and Sediment Control*.

Temporary Protection and Direction of Traffic

Plan, implement, and maintain traffic control as addressed in the *Traffic Control on State Highways for Short Term Work Zones* handbook.

Equipment

Select equipment suitable for the work and situation.

Materials

Use materials needed for the work and situation.

Work Method

1. Identify work to be performed and obtain needed equipment and materials.
2. Implement appropriate traffic control.
3. Implement appropriate methods to control erosion, sedimentation, and pollutants or contaminants.
4. Perform needed work.
5. Remove traffic control.
6. Dispose of excess or waste material at an appropriate location.

Measurement of Accomplishment, Expenditure Account, and Charge Activity

Measurement is number of worker hours involved. Expenditure account type is Highway EA.

- Charge all work to TEAMS Activity 139.
