

Maintenance Activities

The Maintenance program consists of various work activities necessary to operate and maintain the state highway system. For tracking costs and allocating funds these work activities have been assigned "Activity Codes". A description of the following Activity Codes and their intended use is discussed on the subsequent pages.

- MMS Activity Directory
- Surface and Shoulder - Activities 100 through 119
- Drainage - Activities 120 through 129
- Roadside and Vegetation - Activities 130 through 139
- Traffic Services - Activities 140 through 159
- Structures - Activities 160 through 169
- Snow and Ice - Activities 170 through 179
- Extraordinary Maintenance - Activities 180 through 189
- Other Direct Maintenance - Activities 301 through 307
- Nondirect Activities - Activities 014 through 094 and F03 through F43
- Operations and Other Special Programs - Activities L10 through L19 and L51 and L52
