

## **Activities 014 through 094 and F03 through F43 Nondirect Maintenance**

### **General Instructions**

This series of Activities address work performed through the District office that is not directly on the roadway.

If any activity could cause or involve erosion, sedimentation, or discharge of pollutants or contaminants, plan and implement methods to control erosion, sedimentation, and pollutants or contaminants. Those methods include those discussed in the Control of Erosion, Sedimentation, and Pollutants or Contaminants section of this Guide and the *ODOT Routine Road Maintenance Water Quality and Habitat Guide Best Management Practices*.

As appropriate, implement and maintain devices and processes including those described in the *Field Manual for Erosion and Sediment Control*.
