NARRATIVE

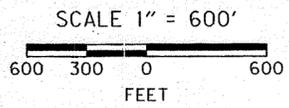

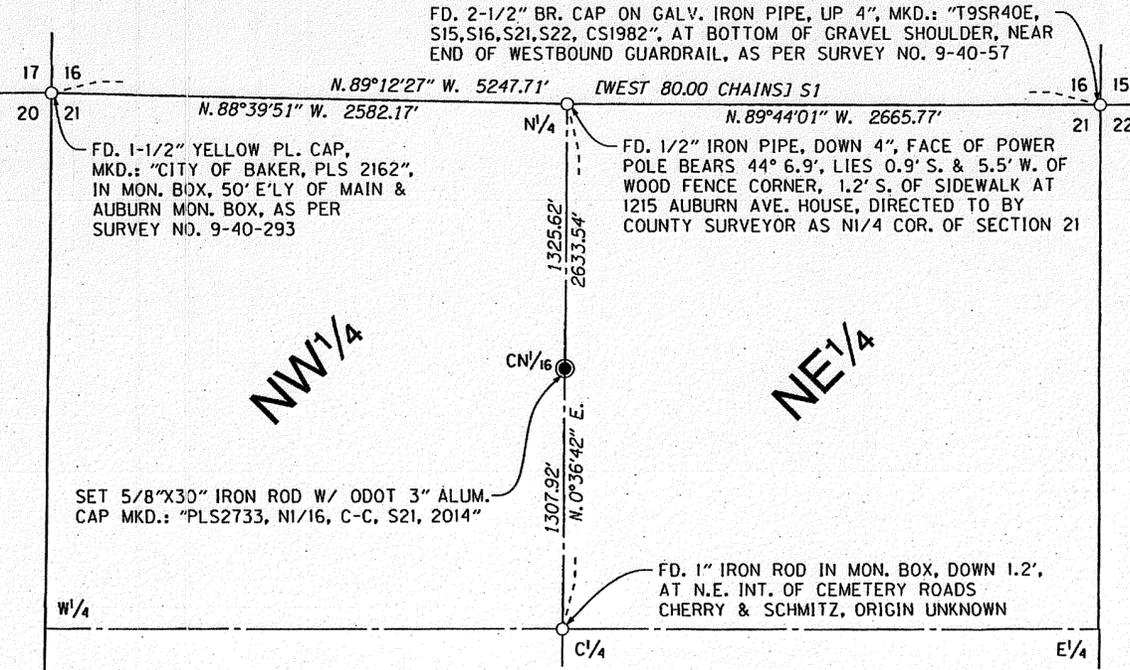

The purpose of this plat for the State of Oregon Dept. of Transportation is to partition the above described land into three parcels. Baker County Deed Book 114, Page 453, recorded on September 30, 1930, and Baker County Deed Book 126, Page 486, recorded on February 21, 1939, and Baker County Deed Book 160, Page 129, recorded on November 26, 1952, and Baker County Deed Book 169, Page 792, recorded on June 29, 1959, provided the property description for the subject property. This is a surveyed partition and the monuments were set.

This survey was completed using two Leica System 1200 dual frequency receivers, model GRX 1230, antenna model AX 1202. The Total Station used was a Leica 1200 with Leica data collection software.

The bearings for this survey are grid bearings based on coordinates from Oregon Coordinate Reference System (OCRS), Baker zone. Horizontal datum is NAD83 (CORS 96, Epoch 2002). Reference ellipsoid is GRS80. All linear values are expressed in International feet unless noted. Average convergence angle for this survey is: 0°00'10" positive, from grid North to geodetic North.

Primary geodetic control is from GPS observations using an OPUS solution from the National Geodetic Survey office.

The OCRS Baker zone is defined as follows: Transverse Mercator Projection, North American Datum of 1983 (NAD83). Latitude of grid origin: 44°30'00" N.; Central meridian: 117°50'00" W.; False northing: 0.000m; False easting: 40000.000m; Central meridian scale: 1.000160 (exact). DITCH EASEMENT

Easement is conveyed to those with a legal water right for irrigation beyond the boundary of said parcel fed by any existing improved ditch. To those persons, is granted a perpetual, non-exclusive easement for it and its laterals, feeders and sub-ditches, headgates and other appurtenances to operate, use, maintain, etc., restore, repair, with heavy equipment when needed, the existing ditch in the same manner as same presently exists upon, over and across the property as shown on map hereon. The total width shall equal 60 feet, 30 feet on either side of the Smith Ditch as recorded June 6, 1980 as Quitclaim Deed 80-24-003 of Baker County Deed Records. Reasonable access to the easement will be granted at the location designated by the property owner, unless other reasonable access is available.

NOTES

The location of the Idaho Power Co. Power Line Easement (79-48-131) along the north line of the SE1/4NW1/4 of Section 21 possibly enters the subject property. Baker County Survey No. 9-40-341 M.P. & Survey No. 9-40-399 both indicate a easement boundary abutting or possibly crossing into subject property.

It is not the intent of this document to grant an easement for the gas utility found along the southerly boundary of Parcel 3 hereon.
