A plan to look at improvements for 82nd Ave (OR 213)

ODOT is preparing to begin the 82nd Avenue of Roses Implementation Plan in Fall 2015.

To help inform the plan's direction, the agency met with stakeholders, business groups, elected officials and partners to get feedback on their priorities for the 82nd Avenue corridor. This scoping work started in Summer 2014 and continued into 2015.

ODOT has funding for the plan, which is expected to take about a year and a half to complete.

The Plan will have a Steering Committee comprised of elected officials and City, State and Regional decision-makers; a Technical Advisory Group; and a Citizen Advisory Group made up of corridor stakeholders.

The 82nd Ave of Roses Plan Will

- Identify important community transportation issues
- Create selection criteria, focus areas, cross sections, and focus area project sets
- Focus on ways to implement solutions identified in the plan, based on community support
- Reach a wide range of project stakeholders
- Determine existing and likely future funding for future improvement projects that can be implemented
