RE: Environmental Assessment  
R/W Report  
US 26: Wildwood-Wemme  
Key #12840

DATE: January 17, 2006

This project may require acquisition of temporary construction easements for driveway connections on five to ten properties, still to be determined. Also, the purchase of a reservation of access and indenture of another reservation of access may be necessary. The outcome of research regarding an easement with the Bureau of Land Management will identify if we need to pursue a new easement with them.

C: Floyd Harrington
