Project Details

Traffic separator example

Install a raised traffic separator in the center of TV Highway from 182nd to 187th Avenues.

Safety benefit: eliminate crashes due to left-turn conflicts

- All turns will still be available at the 185th and 187th Avenue intersections
- Left turns will be permitted into 182nd Avenue and the west driveway of Aloha Mall, but will be restricted to only right turns out onto TV Highway

Bus pullout example

Move the bus stops in both directions on TV Highway to the far-side of the TV Highway/185th Avenue intersection and build bus pull-outs

Safety benefit: improve traffic signal operation & traffic flow and reduce rear-end crashes
