Appendix E: Access Concepts for N. Hayden Island Drive and Avenue B

The following are concept designs developed for the area west of the Hayden Island interchange and north of N. Hayden Island Drive. These concepts are illustrative only and were developed to assist with exploration of access needs and constraints in this area. Final design for access in this area may be based on one or more of these concepts, or other concepts yet to be developed. Concepts for this area will not be selected or adopted as part of this IAMP.
