PILE DRIVING WORK CLOSES LANES ON GOBLE CREEK BRIDGE

Beginning next week, an Oregon Department of Transportation bridge crew will close lanes on U.S. 30 at the Goble Creek Bridge, milepost 40.7. The lane closures will be in place Monday, Sept. 18 through Friday, Sept. 22 and Monday, Sept. 25 through Friday, Sept. 29 between 7 a.m. and 5 p.m. daily. During the work hours, flaggers will control both directions of U.S. 30 traffic at this location, approximately six miles south of Rainier. Steel plates will be in place during non-work hours and motorists are urged to use caution. The lane closures will allow workers to drive new bridge pilings.
