

## TRAFFIC ADVISORY

### **Fremont Bridge inspection traffic impacts**

***Temporary lane closures on I-405, Fremont Bridge and ramps to U.S. 30 from Sept. 15-27***

A contractor for the Oregon Department of Transportation plans to inspect the Fremont Bridge using lane closures on the upper and lower decks of the bridge from Monday, Sept. 15, to Saturday, Sept. 27. This work is part of an in-depth inspection of the bridge every two years.

#### **Inspection locations**

The work will require intermittent single and double-lane closures to allow crews to safely use snooper trucks, bucket trucks, aerial lift platforms and ladders. Lane closure locations are:

- ◆ On both decks of the Fremont Bridge and I-405 north at the bridge entrance
- ◆ On the ramp connecting U.S. 30/Yeon Avenue to the bottom deck of the Fremont Bridge (northbound direction)
- ◆ From I-5 north and south to the top deck of the Fremont Bridge (southbound direction)
- ◆ From the Kerby/Cook Street ramp to the top deck of the Fremont Bridge (southbound)

**\*\*ALL ramps will remain open during the inspection work, with single-lane restrictions on the ramps only. Also, two lanes of the Fremont Bridge will remain open at all times during the work.**

#### **Work times**

- ◆ Lane closures for the inspection work will take place 9 p.m. to 5 a.m. Monday through Thursday nights, and 7 p.m. to 10 a.m. Friday and Saturday nights.
