

TRAFFIC ADVISORY

I-84 exit to 39th Avenue to close

Impact attenuator repair to cause morning closures on June 2, 3

The Oregon Department of Transportation will close the 39th Avenue off-ramp, exit 2, on eastbound Interstate 84 on Saturday, June 2, and Sunday, June 3, from 5 a.m. to 9 a.m. daily.

The ramp closure will allow an ODOT maintenance crew to replace the exit's impact attenuator, which was damaged in a crash. Following the work on June 2, the right shoulder on eastbound I-84 will be closed at the 39th Avenue exit until work is completed on June 3, when the shoulder and exit are reopened.

During the 39th Avenue off-ramp closure, variable message signs will direct traffic to use alternate eastbound I-84 exits.
