Stuart Foster, Chair  
Oregon Transportation Commission  
355 Capitol St. NE, Room 101  
Salem, OR 97301

Dear Mr. Foster:

I represent FLIR Systems, Inc. which provides numerous jobs and makes important contributions to the economy of Wilsonville and the Portland metro region and the state.

My business depends on a sound transportation system, yet the Wilsonville Road/I-5 Interchange that serves my business is at capacity. Wilsonville is growing rapidly and these changes must be made because the interchange is at capacity. We are experiencing increasingly severe bottlenecks along that stretch of road resulting in hazardous driving and pedestrian conditions for our employees. We need your support to make the needed improvements.

Thank you for you support and consideration.

Sincerely,  
**FLIR Systems, Inc.**

William Sundermeier  
President, Imaging
