ODOT, in partnership with the City of Hillsboro, will construct a paving and utility project on OR 8/TV Highway from Minter Bridge Road to SW 331st Avenue, including Baseline and Oak Streets through downtown Hillsboro. Work includes:

- Grinding, repairing (and in some cases reconstructing) and paving OR 8
- Replacing portions of the City's water and storm pipes in the downtown section (see map)
- Improving sidewalks and ADA ramps
- Girder strengthening on the Dairy Creek Bridge

Road users on OR 8 will encounter construction during the day and night for over two years from 2013-2015. **There will be delays and detours in place throughout construction, especially in the downtown section.** Significant effort is being made to minimize traffic disruptions, particularly during the morning and afternoon commute. ODOT and the City of Hillsboro will work individually with businesses and residents in downtown Hillsboro to communicate impacts.

For more information, visit the project website at:
