

US 30 AT NW CORNELIUS PASS ROAD INTERSECTION IMPROVEMENT DIAGRAM

WHAT'S THE PROBLEM ?

- Significant number of high-speed, rear-end collisions at the intersection of US 30 and Cornelius Pass Road
- Extensive backups on Cornelius Pass Road in peak afternoon hours

PROPOSED SOLUTIONS

INSTALL RIGHT-TURN LANE ON US 30 EAST

- Provides a dedicated lane for right-turning vehicles to slow down

INSTALL ADDITIONAL LEFT-TURN LANE ON CORNELIUS PASS ROAD

- Additional lane will serve more vehicles per traffic cycle, reducing peak hour congestion

TRAFFIC SIGNAL

- Upgrade traffic signal to current standards
