

Realigning 32nd Street and Nelscott

ODOT worked with City officials and staff, and the community to consider several options for 32nd Street and for Nelscott:

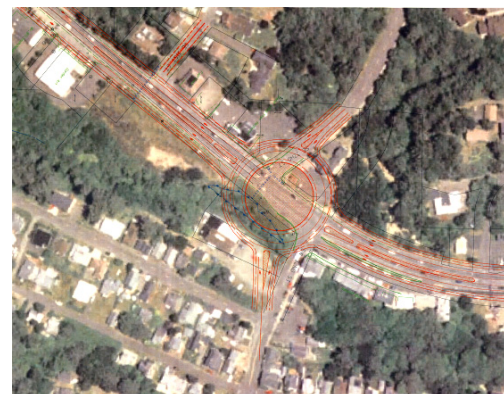

Preferred Option: South Realignment with Jug Handle Turnaround

State and local officials worked with Nelscott business owners to develop their preferred option. The City Council voted to support the drive-through roadway design that is similar to what exists for the Nelscott business strip today. This option maintains the character of the Nelscott business strip but has a higher cost to relocate utilities.

Preferred Option: Nelscott Drive Through

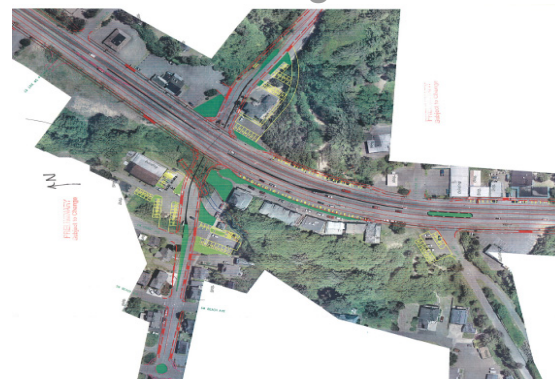

Conceptual Roundabout

North Realignment

South Realignment with Cul-de-sac

North "Skewed" Realignment

Nelscott Plaza
