

Next Steps

What happens next?

Please provide your comments. ODOT's facility plan will include a compilation of comments to help inform decision making now and in the future.

ODOT's proposed changes to Lincoln City's Comprehensive Plan and Zoning Ordinance (Lincoln City Code Title 17) will go before City Council. These changes are needed to build the project in phases.

ODOT and Lincoln City officials and staff will start discussing potential phases that could be built with the available funding.

We will continue to keep the community informed through our web site, e-mail updates, City Council briefings and open houses.
