

US101: SE 16th-SE 36th Street (Lincoln City)

March 2009 CAC Update

We will not be having CAC meetings this spring. Thank you for waiting while ODOT and Lincoln City leaders continue to coordinate plans around design options.

PROJECT UPDATE

- The Project Steering Committee is continuing to review solutions for the project, specifically within Nelscott.
- The project Web site is updated. The updated Web site includes a project library with CAC presentations, meeting minutes and updates.

Please check it out at **www.ODOTproject.info**

We will keep sending updates to CAC members on the progress of the project and will let CAC members know when the next CAC meeting will take place. We do not have an anticipated date for the next meeting.
