

# ODOT Region 5 - 2012 Summer Construction Map

Major state projects in Eastern Oregon: Morrow; Umatilla; Wallowa; Union; Baker; Malheur; Grant and Harney County area

Map No.	HWY., PROJECT DESCRIPTION, COMPLETION DATE
1	<b>Interstate 84 Old Oregon Trail Highway</b> –Durable striping applied to center skip line, MP 218 - 238. <b>Lane closures, flaggers, possible nighttime work.</b> Completion: 9/2012.
2	<b>Interstate 84 Old Oregon Trail Highway</b> –Grind/inlay pavement resurfacing of slow lane along eastbound and westbound freeway, plus replacement of median barrier, MP 238- 246. <b>Lane closures, flaggers, crews and equipment on freeway in work zone.</b> Completion: 10/2012.
3	<b>Interstate 84 Old Oregon Trail Highway</b> –Pavement resurfacing along slow lane of westbound freeway in La Grande area, MP 260.6 - 263.8 and slow lane of eastbound freeway from Drinking Fountain to North Powder, MP 276.8 - 285.5. <b>Lane closures, flaggers, crews and equipment on freeway in work zone.</b> Completion: 9/2012.
4	<b>US 20 Central Oregon Highway</b> – Install 4 each 47" dia. culverts under US 20 for flood mitigation at east end of Burns. MP 132.67 - 132.72. <b>Road closed at work site for two weeks, short detour via Fry Road and OR 78.</b> Work starting mid Sept. Completion:10/2012.
5	<b>US 26 John Day Highway</b> – Replace Dog and Dean Cr. culverts at MP 164.86 (aprox. 2 miles east of John Day) and MP 166.83. <b>Lane closures with one-way traffic controlled by temporary signals, minor delays.</b> Work starting May or June. Completion:11/2012.
6	<b>US 30 Huntington Highway</b> - Replace Burnt River UPRR Bridge (green steel truss structure) at MP 2.57, north of Huntington. <b>Road / bridge closed at work site starting mid-April. During closure, traffic will need to detour via I-84 between Exit 342 and 345 to access opposite side of bridge.</b> Completed: 12/2012
7	<b>US 30 East Idaho Ave. (Ontario)</b> - Intersection improvements at East Lane near Wal-mart and pavement resurfacing between NE Fourth Street and the Snake River Bridge. <b>Lane restrictions, flaggers, minor delays.</b> Construction is on going and will continue through the summer. Completion: 10/2012.
8	<b>US 95 I.O.N. (Idaho/Oregon/Nevada) Highway</b> – Pavement chip seal and construction of safety rumble strips along 121-mile section of highway between Idaho border at MP 0.0 and Nevada border at MP 121. <b>Lane closures, minor delays during rumble strip construction MP 0.0 - 121 in April/May. Loose rock on roadway, single lane travel, flaggers, pilot cars, reduced speeds, up to 20-minute delays during chip seal work MP 66 - 121 in July/Aug.</b> Completion: 9/2012
9	<b>US 395 Umatilla - Stanfield Highway</b> - Sidewalk construction in Hermiston adjacent to northbound lanes between E. Theater Lane and Joy Lane. <b>Lane restrictions, minor delays.</b> Construction expected to begin in April. Completion: 8/2012.
10	<b>US 395 Pendleton - John Day Highway</b> - U.S. 395 Freight Improvement Project to realign sharp curve at MP 64.35-B and add over length truck warning signs for highway section with multiple narrow curves between MP 50 and 60. MP 50 - 65. <b>Lane restrictions, flaggers, delays of up to 20 minutes.</b> Construction expected to begin May or June and continue through the summer. Completion: 11/2012.
11	<b>US 730 Columbia River Highway</b> - Umatilla River Bridge repair, MP 182.6. <b>Lane restrictions, delays of up to 20 minutes, occasional nighttime closures, detours for oversized loads.</b> Construction is on going and will continue through the summer. Completion: 11/2012.
12	<b>US 730 Columbia River Highway</b> - Construct turn lanes, other safety improvements and chip seal between Irrigon and Umatilla, MP 174.3 - 191.3. <b>Lane restrictions, flaggers, delays up to 20 minutes. During chip seal, also expect loose rock on the roadway, day/nighttime flaggers, pilot cars and reduced speeds.</b> Construction expected to begin May or June and continue through the summer. Completion: 11/2012.
13	<b>Oregon 11 Oregon-Washington Highway</b> - Pavement resurfacing from Athena to Milton-Freewater. MP 17.3 - 27. <b>Single lane travel, flaggers, pilot cars, up to 20-minute delays.</b> Starting late May. Completion: 9/2012

Map No.	HWY., PROJECT DESCRIPTION, COMPLETION DATE
14	<b>Oregon 74 Heppner Highway</b> - Rock face work adjacent to highway to reduce falling rock hazard. MP 35.2. <b>Single lane travel, flaggers, up to 20-minute delays.</b> Work is expected to take place in Aug. Completion: 9/2012
15	<b>Oregon 78 Steens Highway</b> - Pavement chip seal application beginning 11 miles SE of Burns. MP 11.15 - 28.23 and MP 47.23 - 60.88. <b>Loose rock on roadway, single lane travel, day/nighttime flaggers, pilot cars, reduced speeds, up to 20-minute delays.</b> Project expected to begin after June 1. Completion: 9/2012
16	<b>Oregon 82 Wallowa Lake Highway / Island Ave. (La Grande)</b> - Sidewalk construction adjacent to eastbound lane of hwy. in La Grande at I-84 Exit 261. Lane restrictions, flaggers, minor delays. Ped / bike traffic will be maintained through work zone. Work started in March. Completion: 6/2012
17	<b>Oregon 82 Wallowa Lake Highway</b> - Replace Indian Creek Bridge 2 miles west of Elgin, MP 18. <b>Single lane travel across bridge, flaggers, minor delays.</b> Completion: 11/2012. <b>OTIA</b>
18	<b>Oregon 82 Wallowa Lake Highway</b> - Road realignment 2 miles west of Minam near MP 31. <b>Temporary traffic signals, single lane travel, up to 20 minute delays at times.</b> Completion: 11/2012 <b>OTIA</b>
19	<b>Oregon 86 Baker - Copperfield Highway</b> - Pavement chip seal between I-84 and Snake River. MP 2.74 - 70.8. <b>Loose rock on roadway, single lane travel, day/nighttime flaggers, pilot cars, reduced speeds, up to 20-minute delays.</b> Work is expected to take place early July through mid Aug. Completion: 9/2012
20	<b>Oregon 204 Weston-Elgin (Tollgate) Highway</b> - Pavement chip seal from OR 11 jct. at MP -1.3 to MP 10.7. <b>Loose rock on roadway, single lane travel, day/nighttime flaggers, pilot cars, reduced speeds, up to 20-minute delays.</b> Approx. one week construction during summer months. Completion: 9/2012
21	<b>Oregon 204 Weston-Elgin (Tollgate) Highway</b> - Erosion control along Philips Creek, placement of rip-rap rock along creek bank, rebuild highway under eastbound lane. MP 31 - 33.5. <b>Lane closures, 24/7 flaggers during road base rebuild, up to 20 minute delays.</b> Starting around Aug. 1. Completion: 9/2012
22	<b>Oregon 207 Heppner-Spray Highway</b> - Pavement chip seal from Ruggs to OR 19 jct. MP 0.0 - 41. <b>Loose rock on roadway, single lane travel, day/nighttime flaggers, pilot cars, reduced speeds, up to 20-minute delays.</b> Construction early to late July. Completion: 8/2012
23	<b>Oregon 334 Athena-Holdman Highway</b> - Pavement resurfacing (concrete), water line upgrades, sidewalk ADA ramp upgrades and other improvements in downtown Athena. <b>Single lane travel, flaggers, up to 20-minute delays.</b> Starting this summer. Completion: 10/2013
24	<b>Oregon 334 Athena-Holdman Highway</b> - Pavement chip seal from jct. of OR 335 at MP 9.57 to jct. OR 11 at MP 18.12. Chip seal will skip downtown Athena, which is getting concrete paving and other improvement via separate project. <b>Loose rock on roadway, single lane travel, day/nighttime flaggers, pilot cars, reduced speeds, up to 20-minute delays.</b> This estimated one - two week project will be constructed this summer. Completion: 9/2012
25	<b>Oregon 402 Kimberly-Long Creek Highway</b> - Pavement chip seal from Kimberly at OR 19 jct. to Long Creek at U.S. 395 jct. MP 0.0 - 34.9. <b>Loose rock on roadway, single lane travel, day/nighttime flaggers, pilot cars, reduced speeds, up to 20-minute delays.</b> Project expected to begin after June 1. Completion: 9/2012
26	<b>Oregon 414 Cornucopia Highway</b> - Pavement chip seal from north of Halfway to OR 86. MP 5.5 - 11. <b>Loose rock on roadway, single lane travel, day/nighttime flaggers, pilot cars, reduced speeds, up to 20-minute delays.</b> This 2 day project is expected to take between early July and mid Aug. Completion: 9/2012
27	<b>Oregon 415 Pine Creek Highway</b> - Pavement chip seal from north of Halfway to OR 86. MP 0.0 - 0.91. <b>Loose rock on roadway, single lane travel, day/nighttime flaggers, pilot cars, reduced speeds, up to 20-minute delays.</b> This 1 day projects is expected to take place sometime between early July and mid Aug. Completion: 9/2012
