

SECTION 00550 - PRECAST PRESTRESSED CONCRETE MEMBERS

Comply with Section 00550 of the Standard Specifications modified as follows:

00550.47 Surface Finish - In the paragraph that begins "Provide a roadway finish...", replace the sentence that begins " Provide a roadway finish ..." with the following two sentences:

Provide a roadway finish on the tops of members that do not have an asphalt concrete wearing surface. Provide a light broom finish on the tops of members that have an asphalt concrete wearing surface.

00550.50 Tie Rods - In the third bullet, replace the sentence that begins "Install compressible washer..." with the following sentence:

Install compressible washer type direct tension indicators under the turned nuts and tighten the nuts as recommended by the manufacturer until the gaps in the indicators are nil or as shown.
