

**SECTION 00410 - PIPE LINING**

*(Follow all instructions. If there are no instructions above a subsection, paragraph, sentence, or bullet, then include them in the project but make necessary modifications to only include project specific specifications. Delete specifications that do not apply to the project.)*

Comply with Section 00410 of the Standard Specifications modified as follows:

**00410.04 CIPP Submittals - Delete the bullet that begins " Proof of certification that..."**

*(Use the following subsection .06 when CIPP lining is required. Obtain the parameter information from the Designer.)*

**00410.06 CIPP Design Parameters** - The following additional design considerations apply to CIPP:

<b>Condition</b>	<b>Parameter</b>
Load Conditions	
Soil .....	
Traffic .....	
Groundwater Elevation.....	
Pipe Ovality .....	
Modulus of Soil Reaction.....	
Enhancement Factor .....	
Allowable Deformity.....	

**00410.70 General** - Replace the sentence that begins "If the tested section is..." with the following sentence:

If the tested section is acceptable, reconnect all service lines.
