

## Green Light streamlines trucking:

- Get weighed as you approach a weigh station at highway speed.
- Pass an instantaneous computer check and get a green light signal on your transponder if you're good to go.
- Save time — about five minutes for every weigh station stop avoided.
- Save fuel wasted going into the station and then getting back up to speed on the highway.
- Save truck wear and tear.
- Pay no extra charges. It costs nothing to preclear an Oregon Green Light weigh station.
- Make weigh station stops a thing of the past!

*Green Light transponders work at 22 Oregon weigh stations and in every other North American preclearance system.*
