

KEEP IN MIND

- Save searches to view later.
- Some transportation services are targeted for specific users and are not open to the general public. These services will not appear in the City or County or City to City searches. Instead, use the Special Accommodations or A - Z listing. An example might be a service offering medical transportation.
- To make searches easier to find, they may be listed under more than one name in the A-Z listing. For example: Rogue Valley Transportation District and RVTD.

TRANSPORTATION OPTIONS is a feature of the Oregon Department of Transportation's traveler information Web site [TripCheck.com](http://www.TripCheck.com). TRANSPORTATION OPTIONS provides detailed information about public transportation services in Oregon. Find information about bus, rail, dial-a-ride, shuttle, taxi, and medical transportation services throughout the state.

WELCOME TO TRANSPORTATION OPTIONS

We are pleased to bring you the Transportation Options feature on TripCheck.com. Quality information is important in ODOT's efforts to support public transportation systems in Oregon and the citizens who use them.

I would like to extend my personal thanks to all of the public transportation organizations for their support of Transportation Options and for their ongoing commitment to keep this information current.

I hope you find this service helpful as you plan your trips on public transportation. Please feel free to share your experience in using Transportation Options with us at the Public Transit Division of ODOT.

Regards,

Michael Ward
Administrator, Public Transit Division
