

# Oregon Public Transportation Plan Policy and Strategy Outreach Summer 2017

# What is the Oregon Public Transportation Plan?

OPTP is a statewide mode plan intended to further develop the public transportation-related policies of the Oregon Transportation Plan.

# Decision Structure

# What will be in the plan?

- Diagram shows kinds of plan topics
  - Early parts address why this plan
  - Policies and strategies are the foundation for future actions
  - Later parts discuss implementing those actions
- We are about halfway through
- We are asking for your input to help us refine policies and inform later chapters

# What will the plan do?

- Describe the role of public transportation
- Establish a policy foundation
  - Develop a vision (the “what”)
  - Describe goals (the “why”)
  - Set policies and identify strategies (the “how”)
- Identify investment and implementation considerations
- Help create a system that
  - Connects public transportation services to each other
  - Connects to other modes
  - Provides people with travel options

# What does this plan mean for you?

- A policy foundation for public transportation in Oregon developed with broad participation
- The plan will assist state, regional and local agencies to
  - identify public transit investment priorities
  - identify opportunities to support transit
  - develop multimodal transportation strategies
- The plan considerations include
  - Authority and scale of service
  - Rapid changes in transportation technology
  - Emphasis on coordination and developing partnerships
  - Build on and support but not duplicate other mode plans

# OPTP Goals

Mobility: Public Transportation  
User Experience

Accessibility & Connectivity:  
Getting from Here to There

Community Livability &  
Economic Vitality

Equity

Health

Safety & Security

Environmental  
Sustainability

Land Use

Strategic Investment

Communication,  
Collaboration, &  
Coordination

# Connectivity and Access

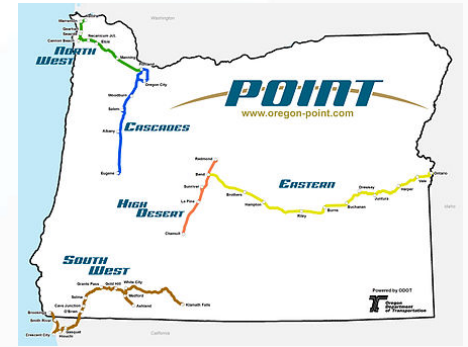

- Enable people to access their community and meet needs by public transportation
- Improve links between public transportation and other modes and services
- Encourage employers to provide incentives for public transportation

# Intercity and Regional Public Transportation

- Identify needs for new or more frequent regional and intercity connections
- Coordinate connections between neighboring public transportation services and providers
- Identify opportunities for greater service coordination

# Integrated Mobility

- Provide greater access to traveler information
- Creation of one-stop sites and integrated sources for trip planning
- Develop easy fare payment systems
- Improve mobility on congested corridors
  - Technology, roadway design, enhanced service

# Equity

- Integrate equity criteria into funding decisions
- Identify needs, barriers, disparities
- Address needs, barriers, disparities

# Communication and Collaboration

- Facilitate shared data collection, formats
- Promote the use of open source software
- Advance coordination between social service providers and public transportation providers
- Support different agencies coordinating services and planning efforts

# Strategic Investment

- Invest strategically by preserving existing service levels, improving efficiency and reliability, and adding new connections and services to meet identified needs
- Identify and develop creative partnerships
- Reduce barriers to creative partnerships

# How to get involved

## ▪ **Actions you can take:**

- Participate in the OPTP online open house (early July - August)
- Please send your comments through the online open house
- Please share the link with others
- Review policies and strategies on the project website
  - Available in early July

**Online Open House Link:** <http://optpfeedback.org/>

**Project Website:**
