- » Action Log: A handout was provided to inform the group on the current action items for the T-FIT group.
- » Data Sharing/Licensing Agreement: Gail shared that the database structure is ready for data licensing and will show what is allowed to be shared with each license.
- » Curry County IGA: OGIC and Transportation Safety are funding this project. This project will be done by December of 2005. The data will be accurate to 7.5 meters.
- » Washington State Effort: Tami reported on the continual support shown by states throughout the country. She has received \$195,000 so far in commitments from other state's DOTs. Thirty thousand of that is committed from the Washington Department of Transportation. Thirty five thousand is committed from ODOT. The Pool Fund Project continues gather support thus ensuring the success of the project. WSHDOT is currently working on data licensing agreements for King and Pierce County. Tami has been encouraged to see the counties working together.
- » Tillamook County IGA: There is no IGA in place yet but ODOT and Tillamook County are discussing options and needs.
- » Census effort: Census has evaluated about a half dozen counties' data sets and all but one county passed the accuracy test.
- » Data loading in All Roads: Chad provided a series of handouts. ODOT is working on loading the existing county data sets into the

database. ODOT is working to correct its highway data to more accurate county data where possible.
