Sure, you have permission to post NCHRP Report 255 on your web site. Just make sure the entire report is posted, especially the title and author page.

Eileen

Subject: NCHRP report 255

Eileen,

I see that Brian's original request is now 2 years old but I would like to follow up and add to this original request by asking permission to put the pdf files that we created of the NCHRP report 255 out on our web page. By doing this we would direct a consultant or anyone requesting a copy of this document to our web page rather than sending them a copy. Using a web page URL is easy to reference in a statement of work and provides less direct request of us. Please provide a written approval if this is acceptable.

At the bottom of my signature block is the URL to view our web page "Oregon Modeling Program".

Hi, Are you asking permission to have someone at your end put this NCHRP Report in PDF for electronic distribution? We are not planning at this time to do such a conversion, but would not stop you from doing that. Let me know what your request is specifically, and I can give you an official permission to reproduce this report.

Thanks, Eileen
