Infrastructure Management

Bridges

Aesthetic Bridge Rails and Highway Guardrails

FHWA 1993

Video/VHS Format

7 min

- Steel backed timber guardrail
- Masonry faced guardrail
- Special timber and concrete bridge rails
- Construction details and crash test footage

Bridges Unbroken

FHWA 1990

Video/VHS Format

A program on the development and use of acoustic testing procedures for examining timber pilings. 20 min

Bridge Assessment for First Responders

Oregon DOT 1996

Video/VHS Format

13 min

Guidelines for Inspection after a Seismic Event. How to conduct a visual inspection of bridges when you're the first on the scene.

Bridge Deck Overlays

FHWA-SHRP 1994

Video/VHS Format

19 min

- Selecting bridges for overlaying
- Preparation for overlaying
- Placement of Latex Modified Concrete
- Placement of Silica Fume Concrete

Bridge Evaluation and Posting

FHWA, NCSU 1993

Video/VHS Format

38 min

1. Bridge Components and Inspection Standards
2. Bridge Deficiencies and Deterioration
3. Forces and Material Properties Affecting Strength
4. Bridge Posting and Permitting Process
5. Bridge Management

Bridge Rails and Highway Guardrails

FHWA 1993

Video/VHS Format

Part 1: Concrete Bridge Railings, NJ-shape, F-shape, and vertical wall 14 min

Part 2: The Modified Three Beam Guardrails 9 min

Bridge Assessment for First Responders

Oregon DOT 1996

Video/DVD Format

13 min

Guidelines for Inspection after a Seismic Event. How to conduct a visual inspection of bridges when you're the first on the scene.

Infrastructure Management

Bridges

Modern Timber Bridges - From Theory to Traffic

Pennsylvania DOT

1992

Video/VHS Format

28 min

Constructing/replacing a timber bridge involves quite a bit. This video will give you some good information to do so.

Moving the Depot Street Bridge: A Summary

Oregon DOT

2006

Video/DVD Format

12 min

Explains the design and make-up of the new bridge, reasons that moving the bridge was necessary and how they moved it. Video was recorded on-site in Rogue River, OR

Prefabricated Timber Bridge Deck Panels

USFS

1998

Video/VHS Format

11 min

This video illustrates a relatively low cost method for fabrication of timber decks over steel girders using methods developed by John Smolen.

Preservation of Oregon's Historic Coastal Bridges

Oregon DOT

1992

Video/VHS Format

29 min

This video will give the viewer a comprehensive look at the process of rehabilitating rather than replacing Oregon's historic bridges.

Steel Truss Bridge Inspection

FHWA, ODOT

54 min

Video/VHS Format

This is a very comprehensive video on inspecting steel girder bridges. It covers most of the problems uncovered by doing an inspection and how to rate the problem on the work sheet.

Structural Inspectors Certification Program

Oregon DOT

1986

Video/DVD Format

51 min

Disc 1 of a 3 disc set presenting the Oregon DOT's Structural Inspectors' Certification Program.

Part 1-Introduction

Part 2-Basic Concrete Construction

Part 3-Concrete Placement

Part 4-Post Pour Activities

Part 5-Pre-construction Preparation and Staking

Structural Inspectors Certification Program

Oregon DOT

1986

Video/DVD Format

49 min

Disc 3 of a 3 disc set presenting the Oregon DOT's Structural Inspectors' Certification Program.

Part 10-Pre-fabricated Girders

Part 11-Cast in Place Girders

Part 12-Bridge Decks

Infrastructure Management

Bridges

Structural Inspectors Certification Program

Oregon DOT

1986

Video/DVD Format

52 min

Disc 2 of a 3 disc set presenting the Oregon DOT's Structural Inspectors' Certification Program.

Part 6-Bridge Foundations

Part 7-Pilings

Part 8-Wet Structure Excavation

Part 9-Structure Inspection

Timber Bridges Inspection

Oregon DOT

49 min

Video/VHS Format

Need to learn the basics of bridge inspection? This tape will teach you where and how to inspect all types of wooden bridges, as well as explain the paperwork that needs filled out.

Infrastructure Management

Design & Construction

Accessible Sidewalks: Design Issues for Pedestrians with Disabilities

US Access Board

Video/VHS Format

40 min

This video provides information and pointers on how to design sidewalks that meet the needs of pedestrians with disabilities. For more information, phone numbers are included.

Access Management - Overview

FHWA-OTA

1997

Video/VHS Format

15 min

Excellent use of computer animation to show access management solutions for traffic conflicts.

Back To The Future: Designs for Walkable Neighborhoods

© Citizens for a Better Environment

1996

Video/VHS Format

20 min

Examples of ways to make citizens less dependent on the automobile.

Back From The Brink - Saving America's Cities by Design

© The American Architectural Foundation

1996

Video/VHS Format

56 min

Examples of how citizens, government, and business interests work to preserve and revitalize downtown areas. Portland, OR, Suisun City, CA, and Chattanooga, TN are featured.

Benefits of Correct Commercial Driveway Construction

ODOT

1994

Video/VHS Format

15 min

Demonstrates the importance of following the recommendations of ODOT Standard Drawing 2077B on driveway dimensioning.

Better Ways to Build with Cement Treated Base

American Concrete Pavement Assoc NW Chapter

Video/VHS Format

10 min

An excellent video for counties that want to try something new to add years to their existing roads.

Boulevards: Good Streets for Good Cities

University of California, Berkeley

1996

Video/VHS Format

21 min

What are boulevards? How do they work? And why are they so dangerous? Or are they? This program is a report on the study of traffic and pedestrian movements on boulevards in Europe and America.

Building the Notched Wedge Joint

© NAPA

1998

Video/VHS Format

8 min

The Notched Wedge Joint is a safer and more effective treatment of longitudinal joints in asphalt concrete pavement.

Infrastructure Management

Design & Construction

Cities in the Balance: Creating the Transit-Friendly Environment

© San Diego Metropolitan Transit Development Board

1993

Video/VHS Format

24 min

Depicts the relationship between transit and land use. Illustrates ways to make transit an attractive alternative to the automobile.

Creating Meadows Through Road Maintenance and Construction

New Mexico LTAP

1994

Video/VHS Format

8 min

Correct positioning of culvert inlets encourages formation and preservation of meadows.

Design and Installation of Buried Pipes

© ASCE

1998

Video/VHS Format

42 min

This program presents information on the principles of installation design, and installation of, medium to large size pipes of all types.

Flowable Fill

Southeastern Fly Ash

Video/VHS Format

22 min

Well presented scenes of flowable fill being used as pipe bedding, trench backfill around pipes, bridge approach fill, void fill, and as large volume fill.

Frost Action in Soils

USACRREL

1992

Video/VHS Format

11 min

This video gives a very good explanation of how cold temperatures affect roads.

Getting to Know Roundabouts and the Northwestern Connector Project

MDOT, Road Commission for Oakland Co.

2007

Video/DVD Format

13 min

There are 2 presentations on this DVD: Getting to Know Roundabouts 8:39 min and Northwestern Connector Project 4:45 min. This project was initiated in Michigan for the purpose of reducing local traffic congestion, to provide an improved connection between 2 major highways, and to improve motorist safety. Included on this very informative DVD, and in an accompanying booklet, are subjects such as what a roundabout is and how they work, a brief overview of how both cars and pedestrians can use them more safely than intersections, and much more.

GIS and Infrastructure Management for Public Works and Utilities

© APWA

1997

Video/VHS Format

3 Tape Set

This is a record of the July 1997 APWA National Telecast. The presentation covers GIS applications, data acquisition and costs, hardware & software needs, and implementation considerations.

4 hrs

Tape 1-GIS Applications

Infrastructure Management

Design & Construction

GIS and Infrastructure Management for Public Works and Utilities

© APWA

Video/VHS Format

This is a record of the July 1997 APWA National Telecast. The presentation covers GIS applications, data acquisition and costs, hardware & software needs, and implementation considerations.

4 hrs

Here's How Roads Are Built

© Video University Productions

Video/VHS Format

An overview for children (and adults) on how concrete and asphalt pavements are built.

1993
14 min

Highway Capacity for Local Government Officials

Delaware T2 Center

Video/VHS Format

This program is a broad overview of level of Service and Characteristics of Travel Flow. Follow-up discussion may be necessary to clarify terms as they apply to local situations.

1989
15 min

Improving American Roads through International Technology

FHWA

Video/VHS Format

This video is a report on the International Technology Scanning Program. Americans take part in tours of other countries to gain knowledge of the policies and practices used in those countries. Contact the T2 Center for a copy of the report "FHWA Study Tour for European Traffic Monitoring Programs and Technologies [1996]".

1998
11 min

Lifelines - Your National Forest Roads

USFS, FHWA

Video/DVD Format

Explores the relationship between people and the land as it celebrates the partnership between the USDA Forest Service, Federal Lands Highway Administration, and state and local communities in providing continued stewardship and access to national forests.

Lime - The Versatile Stabilizer in Construction

The National Lime Association

Video/VHS Format

If you are having roadbed stabilization problems-or contemplating new road building- this video could make a difference.

26 min

Infrastructure Management

Design & Construction

Looking At Change Before It Occurs

National Endowment for the Arts McGuire/Reeder, LTP

Video/VHS Format

17 min

This program shows the use of video imaging to give two and three-dimensional representations of the effects of changes or additions to landscaping, roadways, and buildings.

Making the Effort Works - Reducing Utility Delays During Construction

FHWA, AASHTO

2002

Video/VHS Format

19 min

This is a very good video which focuses on coordination, cooperation and communication helps everyone involved work toward a finished project on time.

Making Streets That Work

Seattle Design Commission

1996

Video/VHS Format

15 min

Different approaches to street design in Seattle neighborhoods.

Retaining Wall Design Guides

USFS

Video/VHS Format

22 min

Overview of design and placement. Examples of each class of structure are shown.

Road to Happiness, The

Historic Fairfax City, VA

1982

Video/VHS Format

30 min

A restored a 1924 silent film promoting road building.

Roadway Design: Balancing Safety, Environment, and Cost

Minnesota Local Road Research Board (LRRB)

1995

Video/VHS Format

13 min

The messages of the program are:

- Regular maintenance of roads is cost effective.
- Road improvements may be needed for reasons of safety.
- Road improvements can be designed with minimal disturbance of the roadside environment.

Road Construction Ahead

© Focus Video Productions

1991

Video/VHS Format

30 min

A program for children (and adults) showing how heavy equipment is used.

Stabilization: Selecting the Modifier

FHWA, ERES

Video/VHS Format

20 min

The characteristics and suggested uses of lime, lime with fly ash, cement, and bituminous materials. Good introduction to the topic of soil stabilization.

Infrastructure Management

Design & Construction

Transit Stop Opportunity

Southern California Association of Governments

Video/VHS Format

20 min

Examples of mixed use development associated with mass transit systems. Portland's MAX is one of the systems shown.

Tribal Transportation Planning - A Vision of a Better Tribal Transportation Plan

A&E Group, Inc., US Bureau of Indian Affairs

2000

Video/VHS Format

15 min

By looking at the Intermodal Surface Transportation Efficiency Act, tribes can determine what their roads needs are, how much money is available to them, and how to build a transportation improvement plan. This tape also gives the viewer a step by step method of how to implement a traffic control plan.

Understanding Superpave Mix Design

FHWA, NAPA

1995

Video/VHS Format

13 min

A program to familiarize audiences with the Superpave approach to asphalt pavements

Walkable Communities: Designing for Pedestrians

WSDOT T2 Center

1997

Video/VHS Format

88 min

Tape demonstrates how to make communities walkable by giving examples of design principles for sidewalks, intersections, mid-block and other types of crossings. Includes maintenance, and street related ADA design and accommodations. Technology is provided in a way that is easily understood by non-professionals. This program was produced by videotaping Dan Burden as he made a presentation in 1996 at a conference sponsored by the Washington DOT.

Walkable Communities: Designing for Pedestrians

WSDOT T2 Center

1997

Video/VHS Format

90 min

Tape demonstrates how to make communities walkable by giving examples of design principles for sidewalks, intersections, mid-block and other types of crossings. Includes maintenance, and street related ADA design and accommodations. Technology is provided in a way that is easily understood by non-professionals. This program was produced by videotaping Dan Burden as he made a presentation in 1996 at a conference sponsored by the Washington DOT.

Walkable Communities: Designing for Pedestrians

WSDOT T2 Center

1997

Video/VHS Format

87 min

Tape demonstrates how to make communities walkable by giving examples of design principles for sidewalks, intersections, mid-block and other types of crossings. Includes maintenance, and street related ADA design and accommodations. Technology is provided in a way that is easily understood by non-professionals. This program was produced by videotaping Dan Burden as he made a presentation in 1996 at a conference sponsored by the Washington DOT.

1997
58 min

Infrastructure Management

Drainage

Importance of Road Drainage, The

FHWA, LTAP

1998

Video/VHS Format

18 min

This program is an overview of design and maintenance considerations for protecting the roadway from water damage. The program should be used to introduce discussion of good practices.

Maintaining the Ditch and Surface Cross Drains

FHWA

2001

Video/VHS Format

16 min

Provides comprehensive instruction for correctly constructing and maintaining ditches, culverts and various surface cross drains. Highlights rolling dips, earthen water bars and interceptor dips.

Mechanical Cleaning of Unlined Ditches

FHWA

1985

Video/VHS Format

20 min

If you are completing a ditch cleaning project, this video gives you the eight steps to properly clean ditches with a grader, backhoe, or gradable.

Pipe Placement

Pennsylvania DOT

1989

Video/VHS Format

8 min

Attention is given to alignment, grade, bedding, and compaction.

Reading Beyond the Traveled Way

USFS

2002

Video/VHS Format

16 min

Considers the natural functions happening beyond the roadway (rain, erosion) and how to use that knowledge before beginning maintenance operations to help minimize significant impacts on the road.

Air Quality Conformity in Transportation Planning

1999

Video/VHS Format

20 min

A good program to introduce the topic of air quality conformity to general audiences.

Air Quality Impact Assessment of Transportation Projects; Introduction to Microscale Modeling

TRB

1999

Video/VHS Format

48 min

Section 1. Regulatory requirements of NEPA and transportation conformity

Air Quality Impact Assessment of Transportation Projects; Introduction to Microscale Modeling

TRB

1999

Video/VHS Format

47 min

Section 2. Vehicle activity modeling and monitoring

33 min

Video/VHS Format	36 min
Section 4. Mobile 5a model	45 min
Section 5. Dispersion modeling at intersections	24 min
Section 6. Documenting your work	

Archaeology Program at the Oregon Department of Transportation

Oregon DOT	
Video/VHS Format	20 min
This program describes the legal requirements for examining historical sites.	

Culverts & Fish Passage

ODOT	2002
Video/VHS Format	133 min
This two video set provides an awareness of the items and circumstances needing consideration when retrofitting culverts for fish passage. Tape 1-An overview of history, laws and biology.	

Culverts & Fish Passage

ODOT	2002
Video/VHS Format	64 min
This two video set provides an awareness of the items and circumstances needing consideration when retrofitting culverts for fish passage. Tape 2-Site specific examples, trenching technology, baffles, and chutes.	

Dangerous Travelers - Controlling Invasive Plants Along America's Roadways

USFS, FHWA, USFWS, Pennsylvania DOT	2006
Video/DVD Format	
Covers the best management practices to assist road maintenance crews in controlling the rapid spread of invasive plants. Highlights plant identification, inventory systems, mapping, mechanical removal, herbicide treatments, weed-free products, maintenance techniques, and cleaning of equipment.	

Fish Passage through Culverts

FHWA, USFS	1992
Video/VHS Format	14 min
A good program on culvert selection and placement to aid fish migration.	

Forest Roads and the Environment

USFS	2002
Video/VHS Format	16 min
This video provides an introduction to the maintenance of low volume roads, highlighting issues that benefit from proper maintenance activities, such as water temperature, fish habitat, and aggregate surfacing loss.	

Getting Across – Aquatic Organisms and Road-Stream Crossings

USDA	2003
Video/VHS Format	6 min
General Overview	
This video provides a general overview of aquatic organism passage at road-stream crossings. It is	

03/2012

intended for people who want to broaden their understanding of the issue and its solution.

Infrastructure Management

Environmental

Getting Across – Aquatic Organisms and Road-Stream Crossings

USDA

2003

Video/VHS Format

16 min

A Brief Introduction

A brief introduction illustrates why and how road-stream crossings are constructed to pass aquatic organisms.

Highway Safety and Trees: The Delicate Balance

FHWA

2006

Video/DVD Format

12 min

While valued as a community asset due to their beauty and environmental benefits, trees are the single most commonly struck objects in serious roadside crashes. Vehicle collisions with trees account for more than 4,000 fatalities and 100,000 injuries each year. Efforts by highway agencies to remove trees are often met with strenuous objections by local residents, concerned with preserving our natural resources and the aesthetics they bring to our surroundings. Explore the issue of the safe placement of trees along our country's roadsides, as this video encourages highway agencies and the public to work together to improve safety while minimizing impacts to the environment.

Highway Safety and Trees: The Delicate Balance

US DOT, FHWA

2006

Video/DVD Format

12 min

While valued as a community asset due to their beauty and environmental benefits, trees are the single most commonly struck objects in serious roadside crashes. Vehicle collisions with trees account for more than 4,000 fatalities and 100,000 injuries each year. Efforts by highway agencies to remove trees are often met with strenuous objections by local residents, concerned with preserving our natural resources and the aesthetics they bring to our surroundings. Explore the issue of the safe placement of trees along our country's roadsides, as this video encourages highway agencies and the public to work together to improve safety while minimizing impacts to the environment.

Quiet Invasion, The - Managing Juniper in Eastern Oregon

© OSU, OWEB, HCWC

2007

Video/DVD Format

20 min

This DVD explores the history, science, and management concepts behind the decision by many local landowners, and federal and state agencies, to actively manage their lands to confront the juniper issue.

RCRA Small Quantity Generators: A Commitment to the Future

© Coastal Video Corp.

2005

Video/DVD Format

24 min

Presented in both English and Spanish, this DVD covers an overview of the Resource Conservation and Recovery Act that was passed to regulate the disposal of hazardous waste. The disc includes a leader's guide and a customizable PowerPoint presentation. A booklet, test and answer key will be loaned with the disc.

Road to Recovery: Transportation Related Activities and Impacts on Salmon

Oregon DOT

1996

Video/VHS Format

32 min

A look at how highway construction and maintenance activities can affect salmon habitat and migration.

Infrastructure Management

Environmental

Road and the Environment, The

FHWA, USFS

Video/VHS Format

14 min

A very general overview of public involvement in roadway design determination.

Savage Earth: Waves of Destruction/Tsunami: Surviving the Killer Wave

Oregon DOGAMI

1998

Video/DVD Format

22 min

Explains the geological findings and patterns of earthquakes and tsunamis in the past along the Pacific coast as well as the likelihood of a tsunami to hit Oregon's coastline

Soil Erosion and Sediment Control

© ASCE, IECA

1994

Video/VHS Format

32 min

The characteristics of water and wind erosion are illustrated and a wide variety of erosion and sediment control techniques are shown.

We All Live Downstream

Oregon State University

1996

Video/VHS Format

28 min

A look at non-point source pollution within the Tualatin River watershed.

Whale Revisited, The

Oregon DOT

1995

Video/VHS Format

6 min

In an attempt to rid a beach in Oregon of a dead whale carcass, the decision was reached to blow it up. See the results on this tape.

Infrastructure Management

Maintenance

Anti-Icing for Maintenance Personnel

FHWA, CRREL

1996

Video/VHS Format

13 min

A general discussion of anti-icing strategy and the use of material and equipment. Could be used to introduce the topic of anti-icing to public works personnel.

Asphalt Overlays: The Four P's

Minnesota Local Road Research Board (LRRB)

1994

Video/VHS Format

16 min

This program is intended for persons who are not engineers or technicians, but are nonetheless concerned with pavement performance. The four P's are Planning, Preparation, Production, and Placement. Only a very small portion of the program contains material specific to Minnesota.

Asphalt Crack Treatment - Helpful Information for the Road

Minnesota Local Road Research Board (LRRB)

1993

Video/VHS Format

15 min

A well presented program, showing routing, hot lance blowout, and sealing (with over banding being used).

Base and Sub-Base Repair

International Road Federation

1985

Video/VHS Format

16 min

Planning on doing some base and sub-base repair? Get some good ideas on what's needed to make a good and effective repair, from this tape.

Bituminous Seal Coat

Washington State OT

Video/VHS Format

16 min

Shows what materials, equipment, traffic control, and work methods are necessary for bituminous seal coats (hot oil, not emulsion). This program was created for training of WSDOT inspectors.

Blading Unpaved Roads

National Association of County Engineers, FHWA

Video/VHS Format

Part 1-Illustrates operations described in the NACE Engineers Training Guide Series booklet "Blading Aggregate Surfaces." Includes techniques to be used at bridge approaches, railroad crossings, intersections, and driveways.

Blading Unpaved Roads

National Association of County Engineers, FHWA

Video/VHS Format

22 min

Part 2-Illustrates operations described in the NACE Engineers Training Guide Series booklet "Blading Aggregate Surfaces." Includes techniques to be used at bridge approaches, railroad crossings, intersections, and driveways.

Chip Seal Application

FHWA

Video/VHS Format

40 min

Part 1: All Pre-placement Concerns

18 min

Part 2: Chip Seal Procedures

13 min

Part 3: Chip Seal Problems

9 min

03/2012

Infrastructure Management

Maintenance

Codington County Solution

© South Dakota DOT

1990

Video/VHS Format

16 min

Shows how Codington County used cold in-place recycling to rehabilitate a badly deteriorated asphalt concrete roadway.

Cold Planing Revolution, The

© ARRA

1989

Video/VHS Format

6 min

An overview of the uses and benefits of cold planing.

Crack Sealing: A Necessity for Pavement Maintenance

ODOT

1992

Video/VHS Format

5 min

Reasons for crack sealing, types of sealant, know what type of sealant to use, overview of the process, types of equipment used and safety while crack sealing

Development of a Quick Change Sign Post System

Cal Trans

Video/VHS Format

9 min

Good installation and demo for areas with sign post loss.

Everyone Pay for Potholes

Cornell University

Video/VHS Format

27 min

Should you be asked why it costs so much to maintain paved roads, this short program gives some excellent points on what needs to be done to keep paved roads in prime condition

Expandable Manhole Riser

American Highway Products, Ltd.

1990

Video/VHS Format

5 min

If your agency is planning to overlay some streets that have sewer and utility manholes, which need raised, this program will show you how to do this at a reasonable cost.

Fit to be Tied: Retrofitting PCC Pavement with Dowel Bars

Washington State DOT / FHWA

Video/VHS Format

52 min

Part 1: Gives the rationale for placing the bars, and shows in detail the installation.

Parts 2 & 3: Records of installations in Kansas and Indiana.

Full Depth Reclamation - URBAN

© Caterpillar

1995

Video/VHS Format

12 min

Good introduction to the process of pulverizing and mixing the asphalt roadway and part of base to form a stronger base to receive new paving.

Infrastructure Management

Maintenance

Gravel Road Maintenance: Meeting the Challenge

Minnesota LTAP, CTS

2005

Video/DVD Format

This 2 DVD set shows maintenance workers, supervisors and engineers the right way to perform gravel road maintenance. Also shows the public what can be done, what is being done and why it needs to be done. Designed as a training tool in conjunction with the Gravel Roads Maintenance and Design Manual. Covers: correct roadway shape, shaping the roadway, good surface gravel, and dust control.

Gravel Road Maintenance: Meeting the Challenge

Minnesota LTAP, CTS

2005

Video/DVD Format

This 2 DVD set shows maintenance workers, supervisors and engineers the right way to perform gravel road maintenance. Also shows the public what can be done, what is being done and why it needs to be done. Designed as a training tool in conjunction with the Gravel Roads Maintenance and Design Manual. Covers: correct roadway shape, shaping the roadway, good surface gravel, and dust control.

Great Barrier Systems - Graffiti Removal

Discovery / GMA

Video/VHS Format

10 min

Combating graffiti with products that reduce the ability of paint to stick to surfaces. Also segment from Good Morning America

Guardrail Installation and Repair

Washington and Alaska T2 Centers, FHWA

1989

Video/VHS Format

20 min

"W" Beam installations. Lecture presentation employing slide photography.

Guidelines for Spring Highway Use Restrictions

FHWA, WSDOT

Video/VHS Format

26 min

Presents an overview of the spring "thaw weakening" problem in pavements and discusses where, when, and how much load restriction to apply.

Large Cold Planer-Inlay Patching

ODOT

1988

Video/VHS Format

17 min

Description of pavement failure when grinding is a good option. With example demonstrations including sweeping, tacking and paving.

Liquid Surface Treatment

Connecticut DOT

1988

Video/VHS Format

27 min

Training program for chip seal application: safety procedures, roadway preparation, distributor considerations, chip spreading, aggregate rolling, and post-application treatment.

Maintaining Gravel Roads in Arkansas

Arkansas T2

Video/VHS Format

9 min

This video discusses the requirements for maintaining an aggregate road surface. Shows the use of a motor grader to shape and/or smooth the wearing surfaces, shoulders, and ditches.

03/2012

Infrastructure Management

Maintenance

Maintaining Asphalt Roads - Blade Patching

New Mexico State Highway & Transport. Dept.

1992
12 min

Video/VHS Format

A thorough presentation on the use of a motor grader to place a patch of premix.

Micro-surfacing: Use, Application, and Inspection

© Video University Productions

1994
1 hr 40 min

Video/VHS Format

A very thorough presentation on the placement of micro-surfacing. Video uses still and motion photography which are employed to illustrate all facets of placement procedures. The presentation is somewhat marred by not being professionally narrated.

Moving Roadway Maintenance

APWA

Video/VHS Format

3 Tape Set
3 hrs

This is a video record of the APWA teleconference, "Moving Roadway Maintenance into the 21st Century." The broadcast was on August 18, 1999. The question and answer sessions involving the viewing audience are included. Tape 1: Michigan DOT's approach to preventive maintenance.

Moving Roadway Maintenance

APWA

Video/VHS Format

3 Tape Set
3 hrs

This is a video record of the APWA teleconference, "Moving Roadway Maintenance into the 21st Century." The broadcast was on August 18, 1999. The question and answer sessions involving the viewing audience are included. Tape 2: The functioning of the county Road Advisory Board (CRAB) of Washington State New Technologies:

- Rosan
- Superpave
- Cold In-place Recycling
- Thin Whitetopping
- Asset Management

Moving Roadway Maintenance

APWA

Video/VHS Format

3 Tape Set
3 hrs

This is a video record of the APWA teleconference, "Moving Roadway Maintenance into the 21st Century." The broadcast was on August 18, 1999. The question and answer sessions involving the viewing audience are included. Tape 3: Pave Tech's van mounted system for pavement rating using digital Temporary Traffic Control (ATSSA) imaging

Partial Depth Patching

Illinois DOT

Video/VHS Format

18 min

Video presents step-by-step procedures for using bituminous materials to make repairs in AC pavement.

NOTE: Your agency may not have all the types of equipment shown.

Infrastructure Management

Maintenance

Pavement Repair: Do the Right Thing at the Right Time

Minnesota Local Road Research Board (LRRB)

Video/VHS Format

21 min

A supposed property owner explains pavement distresses and possible methods of pavement rehabilitation. Good for non-technical audiences.

Pavement Structure Repair Techniques

North Carolina ITRWE

1989

Video/VHS Format

Part 1: Maintenance of Gravel Roads-emphasis on the correct operation of the motor grader in typical situations.

27 min

Part 2: Ditch Maintenance-where and how to use a motor grader or hydraulic excavator.

17 min

Part 3: Pothole Patching-demonstrates a routine six-step procedure for making permanent patches.

17 min

Part 4: Crack Sealing-analysis and identification of cracks, cleaning and preparation, sealant application, and squeegeeing.

16 min

Pavement Structure Repair Techniques

North Carolina ITRWE

1989

Video/VHS Format

Part 1: Shoulder Maintenance-use of motor grader for reshaping shoulders, or for low or high shoulder repair.

21 min

Part 2: Asphalt Chip Seals-discusses appropriateness of chip seals as well as the necessity of min

21

pre-placement repairs, proper materials, and proper technique.

Pothole Repair - Proven Practices

Minnesota Local Road Research Board

1998

Video/VHS Format

14 min

A good short video for tried-and-true techniques for proper patching of potholes.

Pothole Patching

Illinois DOT

Video/VHS Format

32 min

Part 1: Manual patching using cold mix:

Truck's tires are used for compaction. Patching using an emulsion dispensing kettle. The aggregate is spread manually and no compaction is done.

17 min

Part 2: Use of AMZ spray machine:

15 min

This program is for field crews using the equipment. This tape describes preventive maintenance routines.

Pothole Repair in Asphalt Concrete Pavement

International Road Federation

Video/VHS Format

13 min

This video presents some great tips on how to make fixed potholes stay fixed!

Infrastructure Management

Maintenance

Preventive Maintenance - Project Selection

FHWA, FP2

2000

Video/VHS Format

30 min

This program stresses selecting the right treatment for the road at the right time. The video is a follow-up to the program "Protecting Our Pavements: Preventive Maintenance".

Preventive Maintenance Treatment

Idaho LTAP Center

1997

Video/VHS Format

This is an edited record of the April 29, 1997 presentation by John Hopkins, then Director of the Idaho LTAP (T2) Center. This Ed-Net broadcast was received at several locations in Oregon. Tape 1

Section 1: The Case for Preventive Maintenance

33 min

Section 2: Engineering a Preventive Maintenance Program

33 min

Section 3: Materials for Preventive Maintenance

24 min

Pre-Mix Patching - Activity 112

© Virginia DOT 1990

Video/VHS Format 9 min

The procedure shown uses a seven-person crew for traffic control, pothole filling, and rolling using a tow-able steel-wheeled roller. Three trucks are used.

Protecting Our Pavements: Preventive Maintenance

FHWA, AASHTO 1998

Video/VHS Format 14 min

This is a program to sell Preventive Maintenance. It is not a technical presentation on maintenance techniques. Through narration and testimonials, the cost effectiveness of preventive maintenance is presented. The intended audience is public agency management and elected officials.

Problems Associated with Gravel Roads

FHWA 1995

Video/VHS Format 55 min

Part 1: Environment and Materials 16 min

Part 2: Problems: Causes, Prevention, and Correction 23 min

Part 3: Maintenance Equipment and Techniques 16 min

Reading the Travel Way

USFS 2002

Video/VHS Format 16 min

Focuses on understanding what the condition of a gravel road is and provides insights to proactively avoid costly repairs by properly addressing the road in its current condition. Shows rutting, washboarding potholes, destroyed road template, cracks, flour, loss of surfacing, excessive vegetation, water bypassing surface cross drains, damaged or filled cattle guards, damage to bridges and damage to fords.

Infrastructure Management

Maintenance

Rehabilitation of PCC Pavements Using Hot Mix Asphalt Overlays

© NAPA, Asphalt Institute

1993

Video/VHS Format

17 min

Illustrates the techniques of Cracking and Sealing, Breaking and Sealing, Rubberizing, and Sawcut and Sealing. Guidelines are presented for selecting the type of treatment to prevent reflective cracking.

Right Road, The

© ED ETNYRE & Co.

Video/VHS Format

13 min

Well presented overview of chip sealing operation. Very good illustration of computer controlled (ETNYRE) distributor operation.

Road Blading Forest Service Style

USFS

Video/VHS Format

18 min

Designed for the purpose of sharing the Forest Service philosophy and practices by giving a lot of good ideas on how to properly maintain gravel roads.

Save That Road - Asphalt Armor Coating - Chip Seal

Oklahoma DOT

Video/VHS Format

35 min

A thorough look at chip sealing: rock stockpiling site selection, equipment requirements, roadway preparation, equipment operation, and the most common problems.

Seal-coating: A Matter of Science and Skill

Minnesota Local Road Research Board (LRRB)

1993

Video/VHS Format

16 min

An excellent overview of seal coating: fog, slurry, sand, and chip sealing, with emphasis on the chip sealing process. Good for maintenance crews to show technique, and for general audiences to explain procedures.

Skin Patching - Activity 111

Virginia DOT

1990

Video/VHS Format

13 min

Dump truck mounted distributors and rock spreaders are used to place chip seals on distressed areas. No full-lane-width patching is shown.

Small Cold Planer Inlay Patching

ODOT

1998

Video/VHS Format

17 min

This video demonstrates wheel path inlay patching, cold planning to remove distressed materials, and pavement and compaction of inlay materials.

Smoothing and Reshaping the Traveled Way

USFS

2002

Video/VHS Format

13 min

The Forest Service provides some excellent tips on how to smooth and reshape existing unpaved roads in this video.

Infrastructure Management

Maintenance

Smoothing and Reshaping of Earth and Gravel Roads

International Road Federation

1985

Video/VHS Format

20 min

Learn to blade and shape roads correctly. This video has 5 steps for smoothing and 7 steps for reshaping that will really help.

Spot Reconditioning - Activity 113

© Virginia DOT

1990

Video/VHS Format

8 min

In this operation a section of roadway is removed down to stable base, and plant mix is used to complete the repair. Equipment employed may be dump trucks, backhoe, motor grader, front end loader, vibratory compactor, concrete saw, and tack coat machine

Stockpile Recovery to Minimize Segregation

FHWA

1999

Video/VHS Format

8 min

This program illustrates the problem of segregation in aggregate stockpiles and shows the proper procedure a front-end loader operator should use for truck loading.

Street Maintenance Safety

APWA

Video/VHS Format

11 min

A series of still photographs is used to show typical maintenance activities and possible safety hazards. Good narration throughout. Especially good for new and inexperienced personnel.

Transportation Agencies Working Together - 2004 PMAT Pavement Maintenance Projects

Oregon T2 Center

2004

Video/VHS Format

10 min

This video will give all agencies, regardless of size, information on how to work together and save money on projects.

Use of Chemicals to Manage Roadside Vegetation

Purdue University

1991

Video/VHS Format

1 hr 34 min

This is a 9 module series available on a single tape which fits well into a class/training situation.

Module 1: Roadside Vegetation Control is Necessary

13 min

Module 2: Plant Biology for Roadside Vegetation Managers

12 min

Module 3: Characteristics of Chemicals Used

17 min

Module 4: Weed Control Programs

8 min

Module 5: Application Equipment

15 min

Module 6: Equipment Calibration for Roadside Vegetation Management

23 min

Module 7: General Problems Encountered in Chemical Applications

12 min

Module 8: Applicator/Operator Safety

10 min

Module 9: Public Relations for Roadside Vegetation Management

10 min

Utility Cut Repair: Doing It Right

Minnesota Local Road Research Board (LRRB)

1996

Video/VHS Format

11 min

This tape provides an excellent overview of the topic by showing how to repair utility cuts properly.

Infrastructure Management

Maintenance

What is Anti-icing?

FHWA

1995

Video/VHS Format

8 min

An introduction to anti-icing and deicing techniques. This program is good for general audiences.

Winter Maintenance Preparation

IDOT

2001

Video/VHS Format

55 min

Discussion of winter maintenance preparation covering the following subjects: This is a 9 module series available on a single tape which fits well into a class/training situation.

- Plow and Blades
- Spreaders and Spinners
- Forecasting Chemical Application
- Pre-Storm Preparation
- Plowing Techniques
- Post-Storm Cleanup

Infrastructure Management

Pavement

AEMA Paving the Way...to the 21 Century

© AEMA

1995
11 min

Video/VHS Format

This video is a promotional program for asphalt emulsion use. It provides an answer to the question "What is asphalt emulsion?" Audiences should have some knowledge of paving practices.

Asphalt Paving Inspection

FHWA

1995
1 hour

Video/VHS Format

Part 1: Preliminary Responsibilities

27 min

Part 2: Paving Operation

18 min

Part 3: Paving Problems

16 min

Bituminous Paving Inspection Series

Michigan DOT

1991
30 min

Video/VHS Format

A series of programs designed to be used in the training of employees of the Michigan Department of Transportation. Each program should be previewed to be sure it is applicable to an agency's operation.

Series Overview and Equipment Operation.

This program provides information on the mechanical details and operation of distributors, hauling trucks, pavers, and rollers. The attention given to pavers is especially thorough.

Bituminous Paving Inspection Series

Michigan DOT

1991
34 min

Video/VHS Format

A series of programs designed to be used in the training of employees of the Michigan Department of Transportation. Each program should be previewed to be sure it is applicable to an agency's operation.

Preparations for Paving

- Traffic controls
- Repair of existing surfaces
- AC shoulders for concrete pavement
- Joints and patches in concrete pavement
- Cold milling of AC pavement
- Raising drainage structures
- Setting alignment and grade
- Making butt joints
- Weather considerations
- Applying bond coats

Bituminous Paving Inspection Series

Michigan DOT

1991
40 min

Video/VHS Format

A series of programs designed to be used in the training of employees of the Michigan Department of Transportation. Each program should be previewed to be sure it is applicable to an agency's operation.

Paving Operations

- Surface preparation
- Mix delivery
- Course types
- Inspection
- Paver operation

Infrastructure Management

Pavement

Bituminous Plant Inspection

Washington State DOT

Video/VHS Format

37 min

Good introduction to plant operation for anyone unfamiliar with the preparation of bituminous mixes.

Part 1: Bituminous mixes, batch plants

Part 2: Drum mix plants

Bituminous Paving Inspection Series

Michigan DOT

1991

Video/VHS Format

31 min

A series of programs designed to be used in the training of employees of the Michigan Department of Transportation. Each program should be previewed to be sure it is applicable to an agency's operation.

Rolling Operations

- Joint construction
- Compaction requirements
- Rolling principles and procedures
- Density control
- Final surface checks
- Pavement markings (tape application is shown)

Bituminous Paving Inspection Series

Michigan DOT

1991

Video/VHS Format

22 min

A series of programs designed to be used in the training of employees of the Michigan Department of Transportation. Each program should be previewed to be sure it is applicable to an agency's operation.

Crushing and Shaping

This program shows the in-place recycling of pavement into base material.

Bituminous Paving Inspection Series

Michigan DOT

1991

Video/VHS Format

25 min

A series of programs designed to be used in the training of employees of the Michigan Department of Transportation. Each program should be previewed to be sure it is applicable to an agency's operation.

Rubblizing

This program shows the in-place rubblizing of concrete pavement to provide base material for an asphalt overlay.

Cold In-Place Recycling

Asphalt Recycling & Reclaiming Association (ARRA)

1990

Video/VHS Format

10 min

Overview of single unit and "train" recycling methods. Good introduction to the topic for anyone unfamiliar with cold in-place recycling.

Infrastructure Management

Pavement

Concrete Testing

Michigan DOT

1993

Video/VHS Format

39 min

Demonstrates test methods for checking the quality of Portland Cement Concrete from field samples. The tests use standards developed by the Michigan DOT.

Part 1: Sampling Temperature & Slump

Part 2: Acme Air Meter and Roll-A-Meter

Part 3: Molding Cylinders, Molding Test Beams & Testing Beams

Concrete Pavement Overlays

FHWA-SHRP

1994

Video/VHS Format

22 min

- Design considerations
- Pre-overlay repair
- Surface preparation
- Concrete placement and curing
- Joint sawing and sealing

CPR (Concrete Pavement Repair) for City Streets

Dow Corning Corp, Iowa DOT, ACPA

1985

Video/VHS Format

22 min

Details of repairing concrete pavements.

Effective Pavement Preservation: Conditions, Causes and Cures

FHWA, Ohio LTAP

2002

Video/VHS Format

18 min

This video presents information to help facilitate a better understanding of Pavement Preservation concepts, but does not constitute a standard, specifications, or regulation.

Field Control Test for Quality Control of Fresh Concrete

© PCA

1987

Video/VHS Format

48 min

A good video showing the procedures of testing concrete in the field.

Forum on Major Factors Affecting Asphalt Concrete Pavement Performance

TRB

1998

Video/VHS Format

1 hr 30 min

This program is a recording of presentations made at the 77th Annual Transportation Research Board Meeting held in Washington, DC in 1998.

Part 1: Effect of Contractor Operations on Pavement Performance

30 min

Part 2: Paver Operations-Getting it Down Right and Smooth

30 min

Part 3: Segregation-The Birth of a Pothole?

30 min

This presentation is based upon the 1997 AASHTO report "Segregation Causes and Cures for Hot Mix Asphalt"

Infrastructure Management

Pavement

Forum on Major Factors Affecting Asphalt Concrete Pavement Performance

TRB 1998

Video/VHS Format

1 hr

Part 4: Compaction- The Last Chance to Do It Right

This presentation is important for contractors, project managers, inspectors, and roller operators 30 min

Part 5: Effect of Mix Variability on Pavement Performance. This program should be of 30 min

interest to mix designers and quality control personnel.

Handling Hot Mix Asphalt

© NAPA 1994

Video/VHS Format

16 min

A good presentation on the tasks performed by a paving crew. This is a program for audiences with no knowledge of paving operations.

Hydrated Lime- Key to Improved Asphalt Pavements

National Lime Association

Video/VHS Format

20 min

Learn how lime improves asphalt pavements and how to introduce it into the asphalt mix.

Introduction to Rehabilitation of Highway Concrete

FHWA-SHRP 1994

Video/VHS Format

10 min

This video provides an overview of rehabilitation topics which are covered more thoroughly in separate video programs. Concrete Rehabilitation User's Manual is also available for loan. This publication contains complete guidelines and guide specifications for the procedures shown in the video programs.

- Full-Depth Repair
- Partial-Depth Repair
- Pavement Overlays
- Bridge Deck Overlays

Pavement Management Systems for Local Administrators

FHWA 1990

Video/VHS Format

17 min

This video was made to help cities and counties make a pavement management plan for their roads and streets.

Placement Inspection

© PCA 1984

Video/VHS Format

13 min

Concrete placement, vibration of concrete, joint construction, and general concepts of good construction practices. Sampling and testing of ready-mixed concrete. Placement by buckets, buggies, conveyor belts, and pumping.

Portland Cement Concrete Plant Inspection - Truck Mix Plants

FHWA 1993

Video/VHS Format

27 min

All aspects of truck mix plant operation are examined: dry and liquid material measure calibration, batching, truck charging, truck mixing and agitation, and truck cleaning and inspection. Program is suitable for interested non-technical audiences.

Infrastructure Management

Pavement

Post-placement Inspection

© PCA

1987

Video/VHS Format

28 min

How concrete should be protected during both hot-and cold-weather, protection of test specimens cast during placement, inspection of form removal, re-shoring on multi-story projects, and sawing of joints in pavement.

Preventing Rutting - Stripping Asphalt

USDOT

Video/VHS Format

22 min

Having trouble with rutting or stripping? This video will help you understand why and methods to resolve the problems.

Pre-placement Inspection

© PCA

1987

Video/VHS Format

31 min

Shown are inspection of excavation and foundations, forming, placement of reinforcement and embedment, and proper location and placement of pre-formed joints. Video includes inspection at the batch plant and final overall inspection before concrete is placed. Building construction is shown.

Principles of Quality Concrete

© PCA

1994

Video/VHS Format

31 min

Discusses all phases of achieving high strength concrete, from selection of materials to placement and curing.

Quality Control of Concrete On-Site

FHWA-SHRP

1994

Video/VHS Format

18 min

- Water content measurement
- Thermal effects evaluation
- Maturity monitoring

Quality Control of Concrete On-Site

FHWA-SHRP

1994

Video/VHS Format

14 min

- Selecting test sample from pour stream
- Testing temperature
- Testing of slump

Quality Edge-Concrete Flatwork Videotape Training Series, The

© PCA

1994

Video/VHS Format

12 min

Joints & Crack Control

Covers the types of joints: control, isolation, and construction, and provides guidelines for joint location and spacing to effectively control cracking.

Infrastructure Management

Pavement

Quality Edge-Concrete Flatwork Videotape Training Series, The

© PCA

1994

Video/VHS Format

16 min

Basic Techniques for Placing Flatwork

Discusses the tools, supplies, and subgrade preparation required for quality concrete placement. Includes selecting the right size crew, form-setting techniques, reinforcement positioning, ordering concrete, adjusting the slump, and the methods used to place concrete correctly.

Quality Edge-Concrete Flatwork Videotape Training Series, The

© PCA

1994

Video/VHS Format

21 min

Quality Control: Avoiding Slab Defects

Explains how to avoid the practices that cause common defects such as scaling, pop-outs, cracking, crazing, blistering, and discoloration. Illustrates each of these defects and shows how to prevent them by using the appropriate concrete mix and proper construction methods.

Quality Edge-Concrete Flatwork Videotape Training Series, The

© PCA

1994

Video/VHS Format

15 min

Subgrade Preparation and Forming

Illustrates how to prepare the subgrade to avoid unwanted cracking and settlement of the concrete slab. Shows how to remove hard and soft spots, backfill trenches, and select fill material. Covers the materials and techniques used to construct forms of various sizes and shapes.

Quality Edge-Concrete Flatwork Videotape Training Series, The

© PCA

1994

Video/VHS Format

18 min

Basic Finishing Techniques For Concrete Flatwork

Covers finishing tools, strike-off, bull floating, waiting periods, edging, jointing, floating, troweling, and brooming. Details the ordered sequence of steps for finishing and reasons for following them.

Quality Control of Concrete On-Site

FHWA-SHRP

1994

Video/VHS Format

18 min

- Temperature-matched curing
- Pulse velocity testing
- Nuclear density testing

* These are new or modified test procedures developed by SHRP.

Quality Control of Concrete On-Site -- User's Manual is available for loan.

Quality Edge-Concrete Flatwork Videotape Training Series, The

© PCA

1994

Video/VHS Format

16 min

Curing Concrete Flatwork

Explains the purpose of curing, how curing increases strength, techniques for hot and cold weather curing, and curing methods: liquid compounds, plastic sheeting, and wet burlap.

Infrastructure Management

Pavement

Quality Control of Concrete On-Site

FHWA-SHRP

1994

Video/VHS Format

17 min

- Testing of air content
- Testing for unit weight
- Making of cylinders and beams for testing

Sampling Aggregates

Michigan LTAP

1989

Video/VHS Format

26 min

Collecting representative aggregate samples using standards developed by the Michigan Department of Transportation. Sampling is from stockpiles, conveyor belts, and hauling units.

Ultra-Thin Whitetopping: Today's Choice for Durable Pavement Overlays

American Concrete Pavement Assoc., NRMCA

1994

Video/VHS Format

8 min

A quick overview of the placement of 2 to 4 inches of concrete on existing AC. (This is an industry promotional program).

Weather and Loads: The Effect They Have On Roads

Minnesota Local Road Research Board (LRRB)

1991

Video/VHS Format

17 min

A program for non-technical audiences explaining deflection of pavements and the special problem of spring thaw.

What's Hot Mix Asphalt

© NAPA

1994

Video/VHS Format

11 min

A good overview of asphalt concrete production and placement for audiences with no knowledge of pavements. This is a promotional program from the Hot Mix Asphalt industry.

Safety

Highway Safety

Alert Driver, The - A Trucker's Guide to Sleep, Fatigue and Rest in our 24-Hour Society

© American Trucking Assoc., US DOT, FHWA

1997

Video/VHS Format

19 min

This video, as well as the accompanying booklet, provides sound information about the importance of sleep. It also suggests ideas that you and your family can work on together to make sure you get the quality rest you need.

Anatomy of a Winter Storm

Minnesota DOT

1991

Video/VHS Format

13 min

Having to drive in snowy conditions is not easy. Pick up some good tips from this tape about driving on snow packed roads, what to look for in order to avoid an accident, and how to safely follow behind snowplows.

Bike 'n' Ped Driver Education

Florida Bicycle Association

Video/VHS Format

16 min

A good video that promotes bicycle safety and the main obstacles riders need to be aware of.

Diana's Last Message

National Safety Council

2000

Video/DVD Format

10 min

This gripping video presentation recreates Princess Diana's fatal motor vehicle collision. Engineers who reconstructed the crash show how-had she been wearing a safety belt-Diana might be alive today. Hear real-life testimony from collision victims who tell how their choices about safety belt use have impacted their lives. Learn more about common myths and excuses people have about using safety belts, and the facts that dispel these myths.

2007
19 min

Video/VHS Format

A 19 minute video covering:

- Types of hazards
- Methods of exposure
- How to use an MSDS
- Protection from hazardous materials
- Employer Hazardous Communication Plan
- Labels and Warning Placards- how to use them

Hazard Communication: It's Your Right to Know

© Wumbus

2009
22 min

Video/DVD Format

Teach your employees what exactly `right to know` means with this OSHA hazard communication program and MSDS training on hazardous labels. This intuitive video has the most complete and up to date information available in current OSHA online training.

It's About Time...Traffic Signal Management

FHWA

Video/VHS Format

13 min

Demonstrates the importance and benefits of maintaining optimized and current traffic signal timing plans, and investing resources in traffic signal systems. Local officials describe the benefits of traffic signal management and improvements. Describes techniques used, types of signal systems, and how to implement plans.

Learn From Their Mistakes - Hazcom Case Histories

© Coastal Video Corp.

19 min

Video/VHS Format

This video uses case studies of real accidents that have occurred involving working with, or around, Hazardous Chemicals. Includes 3 separate incidents that are played out and then analyzed for what should have been done to prevent the incident. A good attention getter that could work well as a refresher for a safety meeting.

Making Safer Roads

© Insurance Institute for Highway Safety

1995

Video/VHS Format

12 min

A look at roadside safety hazards common to rural secondary roads.

New Directions in Sign Management

ATSSA

Video/VHS Format

17 min

A general discussion of the importance of a sign management program of inventory, evaluation, and scheduled replacement.

Night Lights

ATSSA

Video/VHS Format

10 min

Describes how bright, reflective material on roadways and traffic safety devices saves lives by improving the roadway in a variety of scenarios. Shows the importance of wearing reflective clothing while engaging in outdoor activities. Target audiences are schools, law enforcement agencies, and community events.

Preventing Road Rage: Anger Management for Drivers

© AAA

1998

Video/VHS Format

20 min

Dramatization and driver comments are used along with narration. Only passenger car driving is shown, but subject matter concerns all drivers.

Recognize, React, Recover: Using Rumblestrips to Prevent Run-off-the-Road Crashes

Roadway Safety Foundation, South Carolina DOT

2010

Video/DVD Format

18 min

RSF in conjunction with the South Carolina DOT has launched a safety public education campaign called Recognize, React, Recover: Using Rumblestrips to Prevent Run-off-the-Road Crashes. DVD details the benefits of rumblestrips in preventing run-off-the-road crashes. Also includes resources.

Retro-Reflectivity and Durable Lines on ODOT Roads

Oregon DOT

1998

Video/VHS Format

7 min

A good description of the different types of pavement markings used on ODOT roads. Painted and durable markings are shown in daylight, at night, and during inclement weather. The greater visibility of durable markings is apparent.

Safety

Highway Safety

Right Before Your Eyes

ATSSA 1993
Video/VHS Format 10 min
A general presentation on the need for good pavement markings. Good for a public awareness presentation.

Road Rage: How to Protect Yourself!

© FLI Learning Systems, Inc 1998
Video/VHS Format 15 min
This video covers the rationale for keeping cool, calm and controlled in today's stressful and potentially dangerous driving environment. It highlights common situations that can trigger conflicts between drivers and offers practical solutions to avoid losing your cool or becoming a victim of someone else's rage.

Road Rage

© The Training Network 2000
Video/VHS Format 13 min
We are on the road every day--and everyday there is the potential for dangerous road rage situations. Make sure you know how to diffuse anger and aggression behind the wheel, and learn what you should or should not do to prevent it. An excellent video for safety meetings!

Road System Traffic Safety Review

FHWA, LTAP 2006
Video/DVD Format
This training course builds on the Product Demonstration Showcase held in Ukiah California in September, 2004. It describes a method of systematically reviewing roads to make improvements.

Road Rage and Aggressive Driving: A View From the Driver's Seat

© Aims Multimedia 1998
Video/VHS Format 20 min
Aggressive driving and road rage can lead to serious consequences. This timely program looks at these actions from the driver's perspective. Viewer will learn what to do if they are the object of an enraged driver and how to avoid becoming one themselves.

Safe Efficient Lane Closure

ATSSA 1994
Video/VHS Format 11 min
This program shows the procedure used by the Los Angeles Department of Transportation to close off the curbside lane on a four-lane two-way road.

Safer Roadside, The

Washington State DOT 1992
Video/VHS Format 18 min
In this video, WSDOT shows how they have worked with public utilities to make the roadways safer. For example: moving utility poles from unsafe locations, putting up guardrails where there are unsafe back slopes, among others.

Safety

Highway Safety

Safety Bite Skin Protection

© Long Island Productions, Inc.

Video/VHS Format

5 min

A short video on how to prevent skin disease, which provide 3 basic rules for prevention and 10 short ways to work safely around almost anything.

Seat Belts and the Family

General Motors, The American Medical Assn.

1986

Video/VHS Format

20 min

The video show how to properly use seatbelts in all situations, including for woman during pregnancy. It also explains how to fit small children into their car seats and where most crashes occur.

Setting Speed Limits

Vermont Local Roads

1994

Video/VHS Format

10 min

A six-step engineering study is recommended for establishing posted speeds. Program can be used with general audiences.

Sign Maintenance and Installation

FHWA

1995

Video/VHS Format

27 min

The sign maintenance and installation procedures of Riley County, Kansas, are used to illustrate good practices. This would be a good program for maintenance crews to view and discuss in relation to their own operation.

Snow and Ice Control

Illinois DOT

Video/VHS Format

60 min

Part 1: Reversible, one-way, and 'V' plows. Hook-up, disconnect, and blade replacement

Part 2: Tailgate and hopper box spreaders

Part 3: Pre-trip inspection

Part 4: Plowing and spreading techniques

Testing and Field Inspection of Roadway Delineation

FHWA

1992

Video/VHS Format

36 min

Part 1: Inspection points important to surface marking: material quality, preparation for placement, placement of markings, and inspection of new markings.

Part 2: Other types of delineation: delineators, warning signs, and object markers.

Thin Orange Line, The

ATSSA

1990

Video/VHS Format

38 min

Although some of this tape is a little out-date, there is still plenty of good information on it for those who are in charge of making up plans for traffic control, both from a construction and from a safety aspect.

Traffic Control: What Works?

Minnesota Local Road Research Board (LRRB)

1996

Video/VHS Format

13 min

A good discussion of selecting STOP or YIELD signs at intersections. Would be an excellent program

03/2012

for general audiences.

Safety

Highway Safety

Traffic Barriers

FHWA

1990

Video/VHS Format

3 min

Function, installation, maintenance, and repair.

1. Cable barrier
2. Box beam weak post
3. W-Beam Wood and Steel Strong Post
4. Cement barrier
5. End treatments

Traffic...and Now the Rest of the Story

Oregon DOT

1992

Video/VHS Format

17 min

Explanation of levels of service, traffic counting, ADT, and peak hour considerations. Good non-technical presentation.

Traffic Barriers and Control Treatments for Restricted Work Zones

© Transportation Research Board

1992

Video/VHS Format

14 min

Selection and placement criteria for concrete barrier and end treatments. The program shows some crash tests.

Traffic Detector Video Training Course

FHWA

1992

Video/VHS Format

78 min

A good overview of detector installation and maintenance.

Section 1: Detector Theory, Applications, and Evolution

Section 2: Detector Design

Section 3: Detector Installation

Section 4: Detector Maintenance

Section 5: This is a separate program describing the materials in the publication "Traffic Detector Handbook." This program could be used as an introduction to Section 1-4.

Ultimate Driving Challenge

© Buckley Productions Aims Multimedia

1994

Video/VHS Format

30 min

What do you do when faced with unexpected driving situations, such as drunk drivers, road hazards or emergency vehicles? This tape presents a series of driving situations, each of which is followed by questions posed by Craig T. Nelson and Paula Zahn, which are then reviewed through recreations of the situation.

White Gold

New England APWA

Video/VHS Format

24 min

Emphasizes the need to plan a total snow removal program. A wide variety of equipment is shown.

Safety

Work Zone Safety

Adopt-A-Highway Safety Training & Hazardous Wastes and Your Well-being

ODOT

1991

Video/VHS Format

19 min

An excellent 2 part video for anyone working on roadside clean-up crews, or Adopt-a-Highway programs. It covers what to pick up and what NOT to pick up, where to pick up and how to dispose of the filled trash bags properly.

Part 1: Cleaning up a highway safely

11 min

Part 2: Safely picking up hazardous waste

8 min

Advance Warning (Flashing) Arrow Panels

FHWA

1993

Video/VHS Format

25 min

- Mode selections (light configurations)
- Design standards
- Application and placement
- Costs and maintenance
- Recommendations for operations and usage

Defensive Flagging: A Survivor's Guide (in Spanish)

FHWA, Texas DOT, TEEX

2007

Video/DVD Format

This Spanish translation of the English guide summarizes flagging procedures and emphasizes the vigilant and protective attitude flaggers should have as they protect the lives of motorists and workers.

Elements of Flagging Safety

ODOT

1994

Video/VHS Format

9 min

Emphasizes correct flagger practice and advance warning sign placement.

Flagging Operations and Procedures

Maine DOT

2009

Video/DVD Format

23 min

The video emphasizes correct flagger practice including preparation, work zone setup, stopping, releasing, and slowing traffic. Also included is common flagging situations including nighttime flagging, and emergency situations.

Flagging in the Work Zone - Safety in Your Hands

Oregon T2 Center

2005

Video/VHS Format

10 min

This is available in both DVD and VHS format and was funded by the Western Federal Lands Division of the Federal Highway Administration. The video emphasizes correct flagger practice and advance warning sign placement. It also covers the proper flagging practices and techniques that help make work zones safer for flaggers, workers and roadway users. Developed to supplement other training material used in public agency work zone traffic control classes, the video is also appropriate as a stand alone for routine public work's safety meetings.

Flagging Operations and Procedures

South Carolina DOT

1993

Video/VHS Format

23 min

If you are looking for a short flagging video that has some good tips about how to set up protection for various work areas, this video is a good choice.

Flagging Fundamentals - 6 Steps to Safety

© ARTBA

2011

Video/DVD Format

20 min

"Flagging Fundamentals" DVD provides the latest information to revitalize flagging training programs with information from the most recent federal and industry standards. By focusing on six steps to safe flagging operations, the video is an excellent tool to refresh flaggers which may need to sharpen their skills and remember the critical elements of flagging operations. Available in both English and Spanish versions on the same DVD, this program also includes assessment questions so instructors can ascertain the knowledge gained by their trainees.

Highway Work Zone Safety - Loading, Transporting, and Unloading Heavy Equipment

Iowa DOT, FHWA, AGC, IGTSB

1999

Video/VHS Format

12 min

Special considerations are involved with moving equipment too large to be self-transported over long distances. This video emphasizes visibility and respect for the size of the equipment.

Highway Work Zone Safety - Surveying Safety

Iowa DOT, FHWA, AGC, IGTSB

1999

Video/VHS Format

17 min

Surveyors face hazards as they work in every phase of construction, both inside and outside the work zone. This video will show some of the hazards and how to avoid them.

Highway Work Zone Safety - Grading Safety

Iowa DOT, FHWA, AGC, IGTSB

1999

Video/VHS Format

14 min

This videotape emphasizes worker awareness of dangers and safety considerations associated with grading operations.

Highway Work Zone Safety - Structures Safety

Iowa DOT, FHWA, AGC, IGTSB

1999

Video/VHS Format

12 min

Worker safety is a very important part of every job. This tape covers safety situations on highway construction projects for inspectors.

Safety

Work Zone Safety

Highway Work Zone Safety - Utility Safety in Work Zones

Iowa DOT, FHWA, AGC, IGTSB

1999

Video/VHS Format

14 min

Above and below ground utility hazards are dealt with in the video. It shows examples of the consequences and suggests calling "One Call" for help to locate the hazards ahead of time.

Highway Work Zone Safety - Plant Site Safety

Iowa DOT, FHWA, AGC, IGTSB

1999

Video/VHS Format

11 min

This program shows the need to put together a worker safety program at construction plant sites. It will reinforce safety issues for more experienced workers, as well as introduce good practices to new employees.

Highway Work Zone Safety - Removal/Demolition Safety

Iowa DOT, FHWA, AGC, IGTSB

1999

Video/VHS Format

11 min

This program shows the hazards associated with the demolition and removal of roads, structures, and utilities in preparation for new construction. It emphasizes personal safety by being knowledgeable about the job, equipment, and plan to build.

Highway Work Zone Safety - Paving Safety

Iowa DOT, FHWA, AGC, IGTSB

1999

Video/VHS Format

11 min

There are hazards associated to paving with Portland cement concrete and asphalt cement concrete. This program emphasizes taking personal responsibility for being aware of the changing hazards during paving operations, including night paving.

Highway Work Zone Safety - Moving Operations/Maintenance Safety

Iowa DOT, FHWA, AGC, IGTSB

1999

Video/VHS Format

13 min

This program describes a variety of short-term highway operations from snow plowing to patching, the dangers that can be faced with them, and emphasizes safety practices where standard traffic controls are at a minimum.

Other Side of the Barrel, The

© Tennessee Road Builders Association

1998

Video/VHS Format

9 min

Excellent introduction to work zone hazards for beginning drivers and those new to U.S. driving. Might be useful in certain defensive driving classes for senior citizens.

Roadway Worker Safety - In The Zone

© Coastal Video Corp.

Video/DVD Format

24 min

The video gives a nice overview of many of the hazards maintenance and construction workers will come across while working on or near the roadway. Good safety video to remind workers of all the dangers they could be exposed to and an overview of the preventative measures they should take to prevent accidents.

Safety

To Warn, Guide and Protect - An Introduction to Flagging

New Mexico State Highway & Transport. Dept.

1992

Video/VHS Format

22 min

A very good video for beginning flagging work.

Work Zone Safety for Road Maintenance Operations

FHWA

1995

Video/VHS Format

108 min

Safety according to the Uniform Traffic Control Devices manual shown in 7 easy to understand parts.

Work Zone Safety - "It Happened So Fast"

ODOT

1998

Video/VHS Format

16 min

The goal of this program is to raise the safety awareness of ODOT employees. The program includes tips for safe work practices and incorporates interviews with employees who have experienced injuries or were present when fatalities or injuries occurred.

Safety

Worker Safety

Accident Investigation for Municipal Employees

NSC 1992

Video/VHS Format 18 min

A comprehensive process approach “how to” video covering what, when, where, why, and who aspects of a storage area personal injury accident investigation.

ANSI MSDS Update

© Marcom 2007

Video/DVD Format 12 min

Encourage your employees to utilize the American National Standards Institute (ANSI) MSDS with this in-depth video. Specifically created to train your workers in the ANSI format, you will teach your employees the importance of material safety data sheets and their role in OSHA's hazard communication standard. Topics covered include Advantages of the ANSI formatThe basic questions the ANSI MSDS is designed to answer Review of the sections in the ANSI Material Safety Data Sheet

Asbestos Awareness: Employee Basic Training

© The Training Network 2011

Video/DVD Format 18 min

Asbestos is a strong and incombustible fiber widely used in the past for asbestos cement piping, fireproofing and insulation. Employers are required to provide basic awareness training for employees who may have to work around asbestos containing materials. This program covers topics where training is required by various government safety regulations, and forms the core of the two hour asbestos awareness training requirement mandated by OSHA. It is ideal for custodians, maintenance workers, and others who might contact asbestos containing materials during the course of their work. Your employees will be trained on:

- Asbestos properties and physical characteristics.
- Types of asbestos containing materials and their uses in buildings.
- Latency period and health effects resulting from exposure such as asbestosis, lung cancer and mesothelioma.
- Personal protective equipment and proper handling of asbestos materials.
- Working with asbestos cement piping.

AVOIDING Runovers and Backovers

ARTBA 2009

Video/DVD Format 19 min

This program provides “common sense” tips and information about safe work procedures to reduce and eliminate the hazards which lead to death and injury for roadway construction workers. The DVD has segments for company managers and supervisors, equipment operators, and workers so training can be customized to your audience. Also, the segments are featured in both English and Spanish on one convenient DVD.

Backing: You Owe It to Yourself

Pennsylvania DOT 10 min

Video/VHS Format 10 min

Demonstrates good procedures in a garage, a yard, and at work sites to avoid vehicle backing incidents.

Backhoe/Loader Safety

© Equipment Manufacturer Institute 1997

Video/VHS Format 14 min

Tips for safe operation and transport.

Safety

© Wumbus Corporation

1992

Video/VHS Format

28 min

This video simulates a live action pre-trip inspection test with an examiner, driver and vehicle.

CDL Skills and Road Test: Tractor Trailer Version

© Wumbus Corporation

1992

Video/VHS Format

25 min

The tape simulates the test that covers the six basic controls: forward stopping, straight-line backing, alley docking, measured right turn, parallel parking and serpentine backing.

Chainsaw Maintenance and Safety

© Safety Care

1993

Video/VHS Format

17 min

This is a very good video that contains solid, basic information on sharpening, different cutting procedures, and safety.

Chainsaw Safety

Omark

1984

Video/VHS Format

21 min

Depicts the "how to" and the "how not to" of using the chainsaw. Compares the work habits of two men and shows in graphic detail the consequences of bad work habits.

Chainsaw Use & Safety

© National Arborist Association

1992

Video/VHS Format

16 min

Good program on safe cutting techniques. Tree falling, limbing, and bucking are shown, as well as work from an aerial bucket while the operator is secured in a tree.

Chain Saw Use and Safety

© National Arborist Association

1992

Video/VHS Format

16 min

Good program on safe cutting techniques. Tree falling, limbing, and bucking are shown, as well as work from an aerial bucket while the operator is secured in a tree.

Chainsaw Safety: Real Accidents, Real Stories

© Wumbus Corporation

2011

Video/DVD Format

11 min

The team lead is looked at to set the tone of the workday. Follow what can happen when that team lead, or any worker, doesn't follow required safety guidelines and safety procedures in this behavior based safety training program. This chainsaw safety video covers issues like PPE and cutting procedures for chainsaws in a unique and influential way. Make sure your employees know why you require them to do work your way, the safe way, with the story told on this excellent training film. Give them some proof that complacency for a day can affect you for the rest of your life.

Safety

Worker Safety

Chainsaw Safety Basics: An Expert's Perspective

© Wumbus Corporation

2011
14 min

Video/DVD Format

Public works and other occupations often use chain saws in tree trimming, landscaping maintenance, brush control, and home use. There are many risks involved requiring proper instructions on safe procedures. Includes instruction on how to use the proper daily safety precautions during use of cut off saws on the job. Covers use of proper PPE and machine guarding. Outlines safety procedure from pre-use inspection all the way to shutdown. Gives viewers the information they need to know for each operator to remain responsible for their own safety by following safe operating practices.

Chainsaw and Common Sense for Pro-Loggers

© Stihl Corp.

15 min

Video/VHS Format

A good video for very large tree felling and basic chainsaw safety.

Chemical Biological Preparedness - The New Threat

© The Training Network

2001
20 min

20 min

This incredibly loaded program is filled with important information for the professional drivers who travels both short and long distances as a part of their workday. While addressing the 100,000+ crashes that occur each year from drowsy driving, the viewer will be taught on how to effectively identify and manage driver fatigue. Also covered in the film are; lack of sleep, stress, diet, medications, micro naps, night driving and grave yard shifts and the sleepy feeling when returning to the work after lunch.

Drug Testing

© The Training Network

1994

Video/VHS Format

6 min

Shows how testing works, stressing Confidentiality, Tamper-proof evidence, Chain of custody, and Degree of accuracy.

Drug Testing Awareness for Supervisors

© The Training Network

2003

Video/VHS Format

14 min

The supervisors role in the drug testing process, Who needs to be tested, How to maintain an ongoing drug testing program, detecting and confronting employees using alcohol or drugs on the job.

Dump Truck Operation and Safety

© Vista

2001

Video/VHS Format

13 min

Presents safe operation practices for semi-trailer and single-body trucks. The video includes pre-operation inspections, causes of accidents, load distribution, and surging.

Dump Truck Safety

© Don Brown Productions

14 min

Video/VHS Format

A great reminder for all truck drivers of things to do before starting the work day, this tape covers several kinds of job applications and how to deal with them.

Safety

Worker Safety

Electrical Emergencies: Proper Responses

© Coastal

2004

Video/DVD Format

12 min

When faced with an emergency such as electrical shock or an electrical fire, initial response can save lives. This program teaches employees how to assist co-workers who experience shock and how to respond to electrical fires.

Electrical Safety

© Marcom

2011

Video/DVD Format

17 min

Electricity is all around us. It lights up our homes, powers the machinery and equipment that we use, and runs many of our tools. We are so used to using electricity, most employees simply take it for granted. Yet electricity can also be dangerous. Employees need to know how electricity works, and what they should do to protect themselves from its hazards.

- Basic terms and definitions.
- Circuits and flow of electricity.
- Recognizing and avoiding electrical hazards.
- Special environments.
- Dealing with an electrical accident.

Electrical Safety – Basic Principles

© Coastal Training Technologies Corp.

2000

Video/VHS Format

15 min

When working around electricity, maintaining personal safety requires knowledge and application of basic electrical safety principles, safe work practices and correct emergency response procedures. The video also provides definitions for several terms commonly used among electrical workers.

Electrical Emergencies – Proper Response

© Coastal Training Technologies Corp.

2000

Video/VHS Format

13 min

This video covers crucial information such as the three levels of electrical shock, common causes and classifications of fire, and proper first aid measures that should be administered to victims of shock or smoke inhalation.

Engine Preventive Maintenance

John Deere Co.

Video/VHS Format

60 min

Excellent for all heavy equipment operators and individuals responsible for preventive maintenance of heavy equipment. The tape is divided into four segments: clean air, efficient cooling, functions of lubrication, and clean fuel.

Equipment Tie-down: Tilt-bed Trailers

Washington State DOT

1995

Video/DVD Format

18 min

This video will give you instructions on how to safely hook trailer to towing vehicle. It also covers checking the trailer for defects, trailer hauling capacities, binders and chain requirements, and proper tie-down procedures.

Equipment Tie-down: Tilt-bed Trailers

Washington State DOT

1995

Video/VHS Format

18 min

This video will give you instructions on how to safely hook trailer to towing vehicle. It also covers checking the trailer for defects, trailer hauling capacities, binders and chain requirements, and proper tie-down procedures.

Fall Protection Systems

© Core Media

1994

Video/VHS Format

20 min

The program discusses the proper inspection and use of fall protection equipment. All scenes are in an industrial setting with discussion taking place in a classroom style setting.

First Responder's Duty

© BNA Communications, Inc.

1998

Video/VHS Format

18 min

This program is a series of dramatizations of employees responding at the awareness and operations levels. All scenes are industrial settings.

First Aid: Prepared to Help

© Coastal

2009

Video/DVD Format

16 min

The information your employees receive from this program that demonstrates basic first aid procedures can mean the difference between a temporary and permanent disability and life and death.

First on the Scene

Chemical Manufacturing Assoc.

Video/VHS Format

32 min

This video presents a program for fire fighting units as first responders.

First Aid on the Job - Initial Response

Video/VHS Format

27 min

A program presenting a set of steps to follow in treating an accidental victim prior to arrival of emergency medical personnel. The program will take about an hour if discussion is conducted as recommended in the Facilitator's Manual.

Fire Extinguishers Basic Training

© The Training Network

2009

Video/DVD Format

13 min

Workplace fires cause millions of dollars in damages each year and lead to thousands of employee injuries. Many fire catastrophes can be prevented if employees know how to stop a small fire from spreading. Use this comprehensive video to teach your employees how to properly and safely use fire extinguishers in case a fire does break out. Your employees will learn:

- What causes a fire
- The five classes of fire
- Types of Fire Extinguishers (including Type _K_) and when to use each
- When not to fight a fire
- How to correctly use a Fire Extinguisher using the PASS method
- Inspection requirements

Forklift Operations-Carry the Load

Forklift Safety: Real Accidents, Real Stories

© Wumbus Corporation

2009

Video/DVD Format

12 min

Throughout this training session, viewers will be introduced to the OSHA standard 1910.178, which governs powered industrial trucks, including forklifts -- the focus of this presentation. Viewers will hear thought-provoking stories of real forklift incidents and the far-reaching effects such incidents can have. In the midst of these stories, the video will discuss preventing injuries, accidents and property damage during the use of forklifts, why this is necessary -- and most of all ? how to stay safe and in compliance with the corresponding OSHA PIT standard. After hearing the real stories presented, employees will see the impact of how ignoring general forklift safety and awareness procedures as well as OSHA standards can be fatal. Employees will walk away with a sense of the importance of following forklift safety procedures.

Forklift Safety: The Triangle

© Wumbus Corporation

2009

Video/DVD Format

10 min

This training presentation educates forklift operators on how to safely maneuver their vehicles. It focuses on all aspects of forklift stability, including the stability triangle, working with different surfaces, carrying loads properly, proper braking techniques, preventing property damage, and how to move through any environment safely. General, easy-to-remember tips for safe everyday use of forklifts will be offered. After watching this presentation, operators will know what to be aware of when they operate their forklift, and how to avoid dangers in their working environments.

Handling the Heat

© Safety Shorts

1989

Video/VHS Format

5 min

A program of reminders about ventilation, liquid consumption, and clothing choice in hot environments. Outdoor and industrial settings are used in this program. A short printed test is available.

Hand & Power Tool Safety In Construction Environments

© Marcom

2008

Video/DVD Format

18 min

Most people have injured themselves with a power tool at least once in their lives. In fact, learning to use some tools seems to "require" a little pain. But, tool accidents on the job also result in thousands of serious injuries and hundreds of deaths each year, most of which could have been avoided by simply handling tools safely. This video, shows how accidents can be significantly reduced by applying good general safety rules, and reviews what hazards are associated with the specific types of tools we use. Covers: Tool hazards, maintenance, Inspecting power tools, PPE and protection from hazards, Choosing tools that "fit" you and the job.

Hand Signals for Construction Equipment

Personal Protective Equipment: Reality in the Public Sector

© Coastal

2007

Video/DVD Format

19 min

Give your employees a first-hand look at the tragic consequences when they don't wear their PPE. Once your workers see what COULD happen, then perhaps, unlike the worker in this riveting training program, they'll be more likely to take with PPE seriously. Covers the importance of PPE, wearing the right PPE, employer and employee responsibilities, care and maintenance, and types of PPE.

Personal Protective Equipment - It's Your Call

© The Training Network

2000

Video/VHS Format

10 min

This video effectively combines instruction and a motivating real life story to convey how PPE protects workers and what the consequences are if the recommended PPE is not worn. Required training is covered and the full range of PPE (head, eye, ear, hand, foot) is shown in many job settings.

Pesticide Application Safety

National Parks Service

Video/VHS Format

18 min

Demonstrates the proper protective clothing, eye covering, and breathing apparatus to be worn when handling, mixing, and applying pesticides. Presents information on personal hazards and first aid actions in case of exposure.

Playing It Safe With PPE

ARTBA

2009

Video/DVD Format

18 min

A short, new ARTBA video on the use of Personal Protective Equipment (PPE) in roadway and heavy construction sites will help make your job easier. Available in English and Spanish on the same disc, the DVD contains two segments. The first helps company managers understand what to look for when purchasing PPE, and provides tips on motivating workers to wear it. The second-and most valuable-is a "must-see" for your company's employees. It compares scenes from sporting events to roadway construction work, educating workers about the importance of properly wearing their PPE even if they don't see the hazards around them. Make another wise investment in safety!

Powered Hand Tool Safety: Handle With Care

© Coastal

2009

Video/DVD Format

21 min

Show your employees the benefits of working safely with power tools - on and off the job. This program explains the dangers of powered hand tools and offers training that follows the outline "avoid, protect and defend." Covers avoiding dangers, staying out of the way of tools, proper use of PPE, pre-use inspection, and good housekeeping.

Protecting Your Hands

© Long Island Productions, Inc.

Video/VHS Format

7 min

Wearing proper PPE is important! Locating and avoiding hand hazards, safety around machinery, PPE, hygiene, and first aid are covered topics.

Video/VHS Format

28 min

Part 1: Proper handling of a chainsaw; Part 2: Branch removal and tree falling

Tree Trimming Safety

© Wumbus Corporation

1995

Video/VHS Format

18 min

This tape demonstrates safety and maintenance methods for working with chainsaws, chippers, high lift trucks, and teaches general tree trimming safety.

Trenching & Shoring Safety: The Competent Person

© Safety Source

2011

Video/DVD Format

25 min

It occurs year after year, workers needlessly dying in trench cave-ins. The tragedy lies with the fact that these workers should have never have been in a situation in which their lives were on the line. Based on National Institute for Occupational Safety and Health statistics, an average of 60 workers die in cave-ins annually. According to NIOSH, these deaths are entirely preventable. This video program is designed to train your employees what the responsibilities of competent person are, along with what is required to keep in compliance with CFR 1926.650. Topics included in this program are: Causes of fatalities, Causes of cave-ins, Hazardous atmospheres, and Soil classification & testing

Welding & Cutting Torch Safety

© The Training Network

2011

Video/DVD Format

16 min

Welding and cutting activities produce sparks or use open flames and can create potential hazards especially in confined spaces and process areas. When working with gas welding and cutting operations, there are a number of safety guidelines employees must follow. This program trains your employees in basic safety procedures and safe work practices to prevent injury or property damage during welding and cutting operations. Topics covered include: Proper storage and marking of compressed gas cylinders, Procedures to follow when lighting a welding or cutting torch, Personal protective equipment required for welding operations, and Welding in special situations.

Welding Safety

South Dakota DOT

1994

Video/VHS Format

7 min

The video reviews the many hazards associated with welding and stresses the use of proper equipment and procedures.

What You Need to Know About the DOT Alcohol & Drug Rules: Driver Alert

© Buckley Video Publishing

Video/VHS Format

38 min

Informs CDL drivers what types of testing are required and how testing samples are collected. The video also covers the drivers' and company's rights and responsibilities, as well as describing how each of the five prohibited drug types affects driving capabilities.

What You Need to Know About the DOT Alcohol & Drug Rules: Supervisors Kit:

© Buckley Video Publishing

Video/VHS Format

30 min

Application: This tape dramatizes 11 real-life situations that supervisors are likely to encounter while confronting irregular behavior of drivers. To meet the 60 minutes of drug education required under DOT regulations, the trainer can choose the most appropriate action scenes.

What you Need to Know About the DOT Alcohol & Drug Rules: Supervisors Kit:

© Buckley Video Publishing

Video/VHS Format

30 min

Information: 60 Minutes of Required DOT Training-Supervisors will develop the skills needed by reviewing two VHS videotapes. The "Information" tape focuses on supervisor responsibilities under the DOT regulations. The "Application" tape dramatizes 11 real-life situations that supervisors are likely to encounter while confronting irregular behavior of drivers. To meet the 60 minutes of drug education required under DOT regulations, the trainer can choose the most appropriate action scenes.

What Supervisors Need to Know About the DOT Alcohol & Drug Rules

NSC / Buckley Video Publishing

Video/VHS Format

60 min

Alcohol Supplement: 60 Minutes of Required DOT Training-This program meets the 60 minutes of alcohol training required as of January 1, 1995. The first part is an overview of the rules, featuring Dr. Donna Smith, Ph.D. Dr. Smith explains the five prohibited behaviors, the consequences of a positive test, the intention of the new rules and the implementation schedule. Next, five live-action scenes are used to stimulate discussion and awareness about the requirements of the new rules. Finally, Tamara Cagney, BSN, Secretary of the Employee Assistance Professionals Association, explains how just one ounce of alcohol affects performance on the job.

4 hrs 23 min

Oregon Counties - Providing Vital Services Since 1843

AOC

2009

Video/DVD Format

14 min

Covers a summary of services provided by Oregon counties

Workforce Development

General

OSHA Inspection and Citation Process

© Wumbus Corporation

2011
14 min

Video/DVD Format

If you fall under OSHA, then use this film to train your staff. With such valuable information as the fact that you can reject any OSHA inspection and request that they instead get a search warrant (giving you time to make adjustments in the case of a surprise inspection), not volunteering information during the inspection, not admitting verbally during the inspection that violations occurred, and the fact that while OSHA inspectors can legally interview any workers on site, they don't have to answer any questions, this film is valuable to all managers and supervisors. While it is filmed at a construction location, the same rules and principals apply, no matter the environment that you work in.

Pacific Northwest Transportation Technology Expo

WSDOT, WSDOT T2, FHWA

2000
5 min

Video/VHS Format

Good review of what the T2 expo is all about with examples.

Pathways to Tomorrow

Bureau of Indian Affairs NW Region-Branch of Roads

2003
34 min

Video/VHS Format

Intended for tribal leaders and community decision-makers, this informational program takes viewers to reservations all across the country to investigate transportation issues facing tribal communities. Though a portion of the show is focused on complex cross-jurisdictional factors affecting tribal roads and highways, the emphasis is really on a comprehensive approach to reservation transportation planning.
