

**DON'T LET YOUR FRIENDS... KILL YOU.**

They won't mean to. But having a car full of distracting friends is one of the biggest reasons young drivers get in fatal crashes twice as often as everyone else. That's especially true if you're drinking, speeding or cruising around after dark. So buckle up, drive sober, slow down and drive without passengers. And live past 21.

**Drive Safely. The Way to Go.**
