

ODVA LENDER/BROKER LIST 04.28.2009 UPDATE

Following is a listing, by county, of individual loan originators who are experienced in processing ODVA loan applications, and who have expressed a willingness to assist veterans in the loan process. The list is alphabetized by county, and within counties by first names. Geographical citations are for general locational reference only, so veterans can determine which office might be closest to them. Most of these originators will take an application from anywhere in the state. **Note that there are hundreds of other originators scattered around the state who are also authorized to process ODVA loans.**
