NOTICE

The 2007 Legislature enacted law (ORS 244.255) that reorganized the funding of the Oregon Government Ethics Commission in response to the public's request to remove the agency from the General Fund and create a more stable funding source.

One half of the total assessment will be received from state agencies and the other half from local governments, local service districts and special government bodies subject to the Municipal Audit Law. State agencies have been assessed on a per FTE basis, currently \$16.43. The local body assessment is in relation to their municipal audit fee. The following chart reflects those charges.

	Audit Fee		OGEC Biennial Fee	Annual Fee Invoiced
