O-HITEC Dashboard

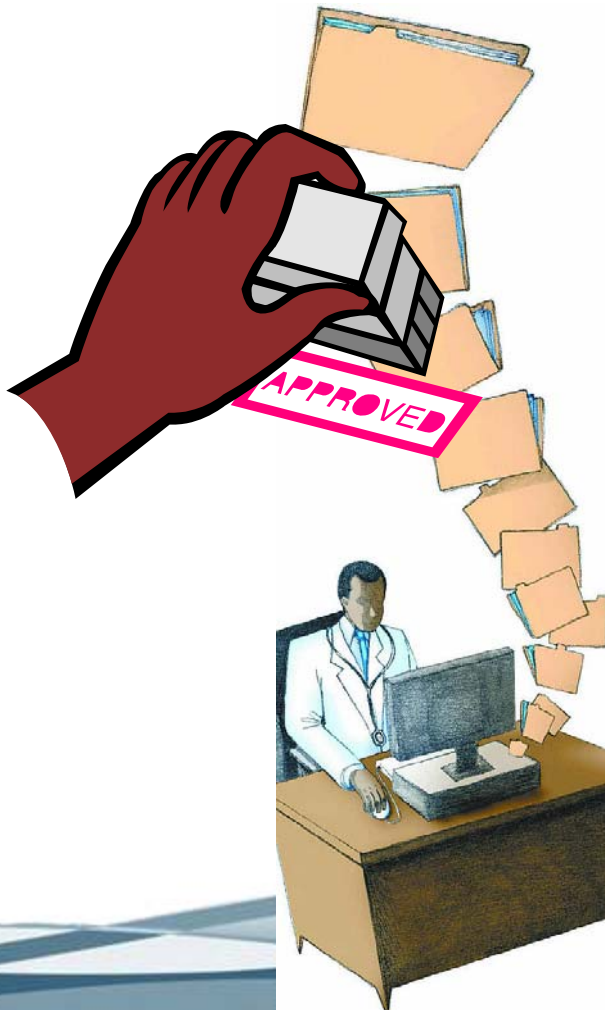

National Data

- In July 1,100 members of the Regional Extension Centers
- 400 in Washington
- Most other Extension Centers are focused on vendor selection and EHR adoption

Products and Services

Meaningful Use

For members with a certified EHR installed, O-HITEC will:

1. Assess EHR use vs. federal meaningful use criteria,
2. Analyze the gap to get to meaningful use of the EHR,
3. Link members with the products & services needed to meet meaningful use certification.

Products and Services

- Webinars

- Web Based Training

Products and Services

- O-HITEC will assist in Vendor Selection:
 1. Selecting a certified EHR from a pre-screened list of supported EHRs,
 2. Contracting with a vendor for EHR implementation &
 3. Facilitating with the vendor to ensure a successful installation
